TSD/CAR MEMO #646
3 January 1963

MEMORANDUM FOR : Chief, Special Affairs Staff

ATTENTION : Mr. A. Rodriguez

SUBJECT : Radio Switch Equipment for Demolition
Firing Purposes

1. After our conversation on ⁰³this subject on 30 December, the ⁰³question was discussed with Mr. (Jay Alpern) TSD/AOB, and Mr. (Lee Poole) TSD/QRF. The following information is forwarded for your consideration as a result of our discussions.

2. Mr. ⁰³(Alpern) Audio Operations Branch, recommends two companies as sources of equipment of this nature. These companies have experience, under classified contracts with TSD, in producing reliable equipment for special purposes of this sort. They also, of course turn out commercial equipment of good quality for normal communications needs. These companies are:

- ^{29,08}
- a. (Motorola, Chicago, Illinois)
 - b. (Kell, Cambridge, Massachusetts) ^{29,08}

^{29,29}
The TSD VHF radio switch equipment for demolition needs was developed for us by (Motorola. 'Kell-Com') transistorized sets have been produced to meet the special needs (not for demolition purposes) of other SAS projects.

3. In the opinion of both persons consulted, the expenses noted in our first discussion should have produced a reasonable amount of workable equipment if the source was both capable and reliable. TSD recommends the use of frequencies in the VHF/UHF spectrum for equipment of this sort and crystal tuning control for reasons of reliability, selectivity and rejection of spurious signals.

4. Inexpensive equipment of Japanese or American manufacture in the citizens band frequency ranges for toys, radio control devices,

short range communications, etc., is available from many manufacturers. Our Quick Reaction Facility can produce a small number of radio switches based on these devices with a considerably lesser degree of security from false signal triggering with a lead time of 6 to 8 weeks. Simple mechanical protection against accidental triggering can be gained by inclusion of counting switches, for example, which require a preset number of firing impulses intentionally transmitted to produce the final closure of a relay and firing of a charge.

5. Reliability of operation in terms of response to a transmitted signal of a given power is quite difficult to predict when conditions of antenna length, orientation and exposure cannot be foreseen. Location of the receiver in a target building will also have a strong bearing on 'range' from the transmitter. Building construction, intervening obstacles and interference from other nearby radio frequency sources will affect performance of the set.

6. If you wish to discuss the problems in greater depth, we recommend a conference with audio technicians or engineers. It may serve to clarify the appropriate characteristics which special or modified commercial equipment should possess to meet the needs of your operation. Problems of camouflaging the explosive or incendiary material to serve operational requirements would be minor compared to the necessary consideration of effects on the receiver switch concealed within which could have important effects on performance.

2 August 1963

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with AMBANG-1

1. I met with AMBANG-1 on 27 July 1963 in Miami. The following is a resume of the business transacted at that meeting.

a. Request for High Explosives

AMBANG-1 stated that in view of my outline of strategic targets inside Cuba during our last meeting which took place in Washington on 21 June 1963, he had decided to attempt a sabotage operation against the Havana power plant. He informed me that he has a man employed in the power plant in Havana who is capable of launching this operation. In this connection AMBANG-1 asked if we could make available twenty pounds of high explosives as well as six to eight thermite grenades. AMBANG-1 asked if it were possible to have the twenty pounds broken into smaller lots. In our further discussion of this subject, it became apparent that A-1 would be willing to receive the materiel either in San Juan or inside Cuba, but that he definitely preferred the latter if this were possible. Like in most other instances during our conversation, I advised AMBANG-1 that I would need to discuss this matter with my superiors but that I could tentatively assure him of our ability and willingness to furnish the high explosives in San Juan and possibly inside Cuba. At this point I asked AMBANG-1 if he could foresee the need for materiel of this type inside Cuba. I told him that I asked this question because if his group were prepared now or in the near future for meaningful sabotage action inside Cuba it was conceivable that we could begin the caching of needed materiel inside Cuba. AMBANG-1 assured me that they

SECRET

- 2 -

were in a position to sabotage the electrical plant in Havana. (I did not ask, neither did he specify which plant.) He did not promise immediate action, adding that he wanted to assure himself of the details of the planned operation and the safety-odds of the man involved. A-1 then indicated that he would certainly be in a position to accomplish this mission and others in the future and would be most grateful for any materiel we could put in place. I left the matter with him with the understanding that if it were possible we would proceed with caching the high explosives in the general area of Havana. He assured me of their capability to service and retrieve the cache.

b. Request for Contact in Guantanamo

AMBANG-1 asked me if it would be possible for us to arrange some means for Rogelio Cisneros to visit Guantanamo and talk to his brother who is an employee of the Naval Base and another agent of theirs likewise employed there. The reason A-1 gave for the request was that they wished to inform Ramon Cisneros Diaz of the JURE plans to begin the implementation of their plan of resistance and overthrow of the Castro Regime. I advised A-1 that whereas I would look into this matter as I could tentatively tell him that the chances of accomplishing this were remote.

c. AMBANG-1 Political Plans

AMBANG-1 informed me that he was planning at this time to be in New York on or about 10 August and that following this trip he intended to go to Santo Domingo and Caracas. In Santo Domingo he hoped to set up a small base for operations such as a small house on a farm near the shore which could be used for boat travel to Cuba. Once he had made such arrangements he intended to talk to President Juan Bosch telling him of the plan and asking his acquiescence if not support. AMBANG-1 intends to tell Bosch that he will not embarrass him and will go about his business in a secure and professional manner adding that if he should embarrass Bosch, the latter could disclaim him and A-1 would desist from any further activity there.

So far as AMBANG-1's trip to Caracas is concerned, that will be principally devoted to orienting the JURE representation

SECRET

in that city. In addition, AMBANG-1 will attempt to see and talk to Venezuelan Government officials including President Betancourt.

Some time after this trip AMBANG-1 intends to visit Central America principally Costa Rica and if he can procure a visa, Mexico. The purpose of all his travel is the raising of funds, the general tightening of his organization and discussions necessary to coordinate their efforts.

d. Isolation of Cuba.

AMBANG-1 made it exceedingly clear that the lifeline to his assets inside Cuba had been severely restricted when PAA flights were suspended. Nothing could suit AMBANG-1 more than to have these flights resumed. AMBANG-1's obviously great interest in the resumption of these flights was the most eloquent statement yet of his belief that he has a network, or that he can revive a network within Cuba. At least at this stage of JURE operations, AMBANG-1 does not appear to consider the infiltration of manpower as necessary.

AMBANG-1 stated that the use of flights from Spain and Mexico to Cuba was difficult and costly whereas the Miami-Havana run had been most useful in maintaining contact within Cuba. It was AMBANG-1's opinion that the resumption of PAA flights would be an operational boom to JURE and that whereas he could see Castro making some political capital out of the flights, he believed that some appropriate statement such as "there is no political significance but only a humanitarian and compassionate reason for the reestablishment of this link," would be sufficient to negate any political advantage by Castro.

e. AMBANG-1 Phasing Out of his Employment

AMBANG-1 gave me to believe that he is closing shop and giving up his position with the Corporacion de Renovacion Urbana y Viviendas where he is employed as an engineer in charge of building pre-cast concrete houses. AMBANG-1 stated that during the past week Governor Munoz Marin gave final authority for the erection of a plant to produce these houses in Puerto Rico. AMBANG-1 is

- 4 -

torn with the thought of leaving this project which he believes will be most successful, and which would assure his livelihood, but he knows that he must devote himself to the fight against Castro. It is obvious to me that AMBANG-1 will within the next two months phase out of this employment to devote full time to the liberation of Cuba.

f. A JURE Radio Link

AMBANG-1 asked me if I would be able to assist him in the establishment of a San Juan-Caracas-Miami radio link. He explained that the JURE has spent a great deal of money on telephonic communications between these points and were most anxious to set up a means of radio communication in order to economize. I guess that AMBANG-1 could tell from my reaction that I was not too sympathetic to his request for he withdrew it almost as soon as he had made it. He went on to say that this was a problem which they could overcome and I presume that he will seek to establish such radio communications without our assistance.

g. Aerial Maps of Cuba

AMBANG-1 informed me that the JURE membership had brought out of Cuba an entire series of maps showing key roads, bridges, industrial plants, et al, which they had copied by the Aero Service Corporation in Philadelphia, Pennsylvania. AMBANG-1 stated that they had received most of these photos from the Aero Service Corporation but that the 101 were still missing. He gave me the numbers of those missing and asked if we could procure them. I have since informed AMBANG-1 that it would perhaps be best if he could, or his organization, do this instead but that we would pay the travel of one of his men, should this prove necessary. Attached, hereto, is a copy of the missing photos in question.

h. JURE Organization and Strength

AMBANG-1 informed me that the membership of the JURE in San Juan was now at about 500 members and that each of these individuals makes a weekly contribution to the organization.

In addition there are large JURE organizations in Caracas, Venezuela and Dallas, Texas. There are according to AMBANG-1 a total of thirty delegations in Latin America, the U. S. A. and Europe. He cited as an example the delegation in San Francisco which had recently purchased a typewriter through the collection of green stamps. He added that Rogelio Cisneros had travelled to San Francisco some time ago to communicate with that group and to tighten its organizational activities.

i. AMBANG-1 Asks About ARTIME and the Activities in Central America

AMBANG-1 raised the question of Manuel ARTIME's activities in Central America and particularly in Nicaragua. He stated that any association with Somoza would not help in creating the mystique and political coloration necessary to inspire revolution and resistance from the non-Communists elements in Cuba. Whereas, I had expected AMBANG-1 to go into a long harangue as to the positive damage that ARTIME's actions with Somoza could cause, he left the matter at about this point. I agreed that the Somozas did not have a liberal political reputation throughout Latin America, but added that whatever Cubans could do from that or any vantage point against Communism in Cuba would in my estimation be helpful, -- while I am sure AMBANG-1 did not agree with me, he did not say so. In respect to ARTIME and Miro Cardona, whose name entered into the conversation later, AMBANG-1 took a fairly objective view. He stated that Miro had arrived in San Juan and that he wished him the best as he figured he had suffered enough. Insofar as ARTIME was concerned I gathered that AMBANG-1 might feel that the association with Somoza would not do ARTIME any good in a post-Castro Cuba. As AMBANG-1 is convinced that a government after Castro must be of a progressive liberal stripe, ARTIME was not doing himself any good by identifying himself with the Somozas.

j. A List of Cuban Diplomats

As AMBANG-1 had asked for a list of Cuban Diplomats abroad while we were in Paris, I advised him that such a list had been prepared and we would make it available to him. In this connection he asked if we could include the addresses of each of the Cuban installations. Speaking of diplomats, AM BANG-1 wanted to

know if Ambassador Gustavo Arcos had returned from Prague. I informed him that I did not know. AMBANG-1 was most interested to learn that Franqui's wife and children had actually come out of Cuba, and indicated that he would intensify his efforts to maintain contact with Cuban Diplomat Cabrera Infante in Brussels as a means toward the eventual recruitment of Franqui.

k. AMBANG-1 Relation with Jorge Volsky

In conjunction with questions regarding propaganda sent to Cuba, and the JURE's general plans in this field, I asked A-1 about his relation with Jorge Volsky. A-1 stated that he considered Volsky to be an extremely able, serious newspaperman. He added that whereas he saw Volsky frequently on his trips to Miami, the latter did not work for him. A-1 stated that Volsky's work was a full-time job which left him little time to do anything else.

A-1 stated that JURE propaganda was produced by a twelve - man board.

A-1 added that the JURE expected to shortly introduce a statement on its position into Cuba.

l. AMBANG-1 Asks about Two Man Underwater Craft

A-1 asked if I knew anything about a two man type craft which travels through the water. I presume A-1 was talking about the "sea-sled." I advised him that I know little about this type craft, but in my opinion its usefulness for the type activity he had in mind was limited. AMBANG-1 would use this craft for the final phase of an infiltration effort. A-1 stated that this craft was being used at the hotel beaches in San Juan as a type of sporting activity. I will advise him that he could pursue this matter himself as all knowledge on this subject is publicly available.

m. AMBANG-1 Trained in [Simple Scorch System]

A WAVE technician, ⁰³ [Culver Ladd] under the name of Mr. Lane trained A-1 to use a [simple scorch system] of S/W. A-1

24

was given some eighty pills with which he will be able to make the "ink" used in this system of S/W. A-1 was pleased with the system, especially its simplicity. He will use the system to communicate with his chief delegate in Paris and undoubtedly other persons in Cuba as well as in the other JURE delegations.

n. AMBANG-1 is Writing an Article for Cuadernos

At the request of German Arcienegas, the famed Colombian intellectual, A-1 is preparing an article which is to be published in Cuadernos. The article will deal with the problems facing Latin America and how they can be resolved. A-1 will be in select company as Arcienegas has asked a number of prominent Latin American intellectuals for their views.

o. Communication Between AMBANG-1 and Case

Officer

AMBANG-1 gave me the following addresses at which he can be reached:

Corporacion de Renovacion
Urbana y Viviendas
PARADA 31
Ponce de Leon,
Hato Rey
Puerto Rico Telephone No. 723-1671

(NOTE: This is not AMBANG's office or home, but that of a friend who is always able to reach A-1.)

Also:

Mr. Jaime Mitrani
1260 W. 61 Place
Hialeah, Florida

AMBANG-1 was given the following means of contacting me:

Mr. Alfred Fernandez
P. O. Box 1104, Main Post Office
Washington, D. C. Telephone No. 737-8294

AMBANG-1 will use the name "Tony" as a signature in mail to me.

2. General Observations

I believe AMBANG-1 is planning to return to Cuba. He indicated that he would give the matter serious thought to even go in, disguised, as a legal traveller if that road were generally open, i. e., if rather large numbers of travellers were going in via PAA flights. This line seemed a bit out of character for A-1, for it seems unrealistic and somewhat remindful of Macaulay's references to the state of mind that exiles develop. I also detected what we consider to be a somewhat unrealistic appraisal of the Cuban situation in A-1's estimate that Castro has considerably less than 40% of the Cuban people with him. A-1 may be losing more than a little touch with Cuban reality.

A-1 remains convinced that he is on the right track in working for the eventual overthrow of Castro. He is convinced, however, that two to three years is all the time left for actually destroying the Castro regime, believing that there will be a favorable turn in the Cuban economic situation by late 1965. A-1 is likewise convinced that Castro cannot add to the improvement of Cuba, to the contrary that so long as the principal decisions are made by Castro, the general trend will be confusion arising from a failure to concentrate on specific problems until they are corrected.

AMBANG-1 is likewise convinced that the JURE is building a political group and general outlook which will have an impact on Cuba for many years to come. He is especially concerned with the need to carefully consider each position of his group in order to create the lasting impression that JURE knows where it is going and that its leadership is composed of men who know how to "run" a country without the false starts, confusion and chaos identified with the Castro regime.

AMBANG-1 is likewise greatly concerned with the necessity of not creating an impression inside Cuba that the JURE will return to mete out "justice." It is essential, A-1 states, to convince the general populace that the overthrow of Castro will not result in a bloodbath, rather that the sole aim is to save the revolution that has been betrayed. He is anxious that the people inside Cuba see

- 9 -

the JURE as a responsible, intelligent and dispassionate group
which is capable of bringing to Cuba all that the revolution promised.

MEMORANDUM FOR: Chief, Special Affairs Staff

SUBJECT : AMWORLD--Project JMHART

1. Chief, WH/7 has tentatively offered the services of CIA contract personnel assigned to this project--principally those of the Director of the Panamerican Foundation, Mr. Curtis Wilgus--to serve as a channel to ex-President Figueres and Foreign Minister Oduber in promoting the acceptability of AMWORLD and AMBIDDY-1 by the moderate left. Under the terms of the JMHART Project, CIA, through Curtis Wilgus, will be able to influence the composition of the student body of the School for Inter-American Development. It is proposed that Wilgus would tell Figueres and Oduber that it is intended to also enroll Cubans in the school and that in the opinion of Wilgus they should be drawn from exile organizations known to be dedicated to democratic principles, such as Artime's MRR, Manolo Ray's JURE, the MRP and MDC. It is unlikely that Figueres and Oduber would demur. In any case, their demurrals could be overruled. The prominent mention of the MRR as a cradle of democratic ideas and the actual inclusion of students selected by Artime would postulate acceptance of the MRR and of Artime as exponents of a political philosophy acceptable to the moderate left. Any excoriation of Artime for having allied himself with the Somozas would be blunted if the MRR forms a part of the student body (and conceivably the faculty) of the School of Inter-American Development.

2. I intend to suggest to Artime that he pay his respects to Figueres in Cambridge, of course without alluding to the school project. The purpose of the call would, quite frankly, be to butter up Figueres.

- 2 -

All the information I have been able to gather suggests that the combination of Munoz Martin/Figueroa, as far as Washington is concerned, is unbeatable and that Arttime has little choice but to align himself with their way of looking at things--or at least to pay lip service to it.

3. Another angle I would like to explore is President Betancourt. The more I read of his accomplishments as president, the more impressed I am. What would you think of having Arttime, armed with a letter of introduction from Figueres, pay Betancourt a call before he relinquishes the presidency. Arttime's approach would not be that of a supplicant or solicitor of support, but that of a young man making a pilgrimage, sitting at the feet of a revolutionary who has been successful, absorbing knowledge of how it was done. He could ask Betancourt, after he is out from under the daily grind of government, to address himself to the problems of post-Castro Cuba. He could invite him to chair a seminar attended by the MRR leadership. The objective would, of course, be to involve Betancourt in the affairs of the MRR, without putting his name on the masthead and without asking him to contribute anything but reflections of his lustre as a Latin American leader who bequeathed his country a constitutional and democratic regime. Undoubtedly Arttime will have to cast off ideological ballast in order to accommodate his reluctant sponsors (Figueres, Betancourt), but Havana "vaut bien une messe." As a minimum objective, Arttime would in any case have to strive to neutralize the latent animosities of the moderate left, denying Manolo Ray an unchallenged ascendancy in monopolizing its support, which he can probably get for the asking.

4. A welcome by-product of the resuscitation of JMHART, is "Combate," an influential periodical with strong readership appeal in Latin America among elements of the moderate left, edited by Monje. A German national named Dr. Erich Herzog who is a member of the Social Democratic Party of Germany (SPD) has been lecturing in San Jose on an "Ideological Inquiry into Communism," his program, indirectly sponsored by the Federal Republic, will be absorbed by JMHART. He wields considerable influence in molding the thinking of Central America's left of center leadership. The First Secretary of the Israeli Embassy in Guatemala has also been mentioned as influential among the intellectual elite. A Puerto Rican named Santiago Pollante

<p>Action Required: FYI</p> <p>1. Transmitted herewith are one copy each for C/WH/COG and COS/WH/MIAMI of the April 1970 Cuban Official Presence Listing as prepared by the local LNERGO Cuban Squad. The under-signed has added on the 201 numbers, indicated CUIS affiliation, added two names and deleted one. The departure dates for several CMUN personnel also are noted. The listing, thus, is valid as of 10 April.</p> <p>2. According to LNERGO, only two CMUN working wives are officially carried on LNERGO records. Maria BERNUDEZ Garcia, wife of Jose Raul VIERA Linares (201-328953), and Consuelo HORTA Larrinaga, wife of Pablo DRAKE Capiro (201-815821). BERNUDEZ, because of the impending departure of the VIERAs on 14 April, can be deleted from the listing. Additionally, other CMUN wives work or have worked in the past on a sporadic basis (such as Teresita FERNANDEZ Arango, wife of DGI Center Chief Orlando PRENDES Gutierrez (201-330002). However, only BERNUDEZ and HORTA of late have been regular local employees.</p> <p>3. Addressees will note the preponderance of DGI personnel on the CMUN roster. Of the 18 (excluding Rolando PEREZ Alfonso) personnel on board as of 10 April, 12 are DGI. Interestingly enough, 6 non-DGI personnel is a higher number than has been the rule over the past several years; at one point there were only 3 non-DGI personnel, including the Ambassador/Permanent Representative. Of these, 12, two (DRAKE and CADALSO) are code clerks detailed to the DGI Center from the DSE. Two others (REYES Goicochea and SANTIAGO) are the "architect"</p> <p>Attachment: As stated - Para 1 - h/w.</p> <p>Distribution: 2 - Chief, WH/COG, w/att. h/w. 2 - Chief of Station, MIAMI, w/att. h/w. 2 - Chief, DO, w/o att.</p>

and the man assigned here temporarily to work on the CMUN secure rooms and security systems (see previous reporting for details). Thus, 8 personnel are left for espionage operating purposes. Rogelio RODRIGUEZ Lopez (201-332665) probably serves now as the Deputy to Center Chief PRENDES. Allowing for the impending departures of Rolando PEREZ Alfonso, Jose Raul VIERA Linares, and Pedro Luis PINERO Eirin, the DGI Center will now consist of:

✓ Orlando PRENDES Gutierrez

✓ Rogelio RODRIGUEZ Lopez

✓ Orlando PEREIRA Gonzalez

✓ Miguel Manuel SANTANA Fraiz

✓ Justo Cesar GELABERT Martinez

✓ Ruben Rafael FRANCO Gonzalez

✓ Raul REYES Goicochea

✓ Roberto SANTIAGO Humet

✓ Pablo DRAKE Capiro

4. As will be noted, the departure of Jorge REYES Vega (in March) and the impending departures of VIERA and PINERO will change the complexion of the DGI Center considerably. If they are not replaced for one reason or another (per other reporting), the DGI Center will have but four experienced and competent Case Officers at its disposal. Of these, PRENDES spends by far the bulk of his time inside the office pursuing his role of supervisor/manager. RODRIGUEZ is a handler. GELABERT and SANTANA are mainly concerned with operational support tasks -- GELABERT is the Center's best counter-surveillant, and SANTANA is the technical "expert" of the Center. PEREIRA is a handler, but his abilities are rather limited in this regard, per Base and LNERGO information and observations. Should the departees not be replaced, the Center may be forced de facto into a cutback of operational activity.

5. We shall watch with interest the behavior patterns of the DGI Center in the near future, in light of the above and in light of other recent reporting re the status of the DGI abroad.

JUAN REJANO, ex agente gachupin, inició a MAIZ "P", portero de la Embajada Cubana, que necesita hablar con ROGERIO RODRIGUEZ urgentemente; que si le puede mandar mensaje. MAIZ dice que ROGERIO ha salido y no sabe a qué hora volverá, pero al cuanto regrese le dirá que vaya a verlo. REJANO le pide que primero mandarle recorde a algún sitio, porque es una cosa muy urgente. MAIZ está seguro que ROGERIO no está en su casa porque la mujer se fue ayer a Cuba y él habrá ido a comer a algún lado, pero cree que vuelve por la tarde. REJANO pide le diga en cuanto llegue que se comuniquen con él, ya sabe a dónde que tiene urgentísimo que hablar con él, "pues este hombre parece que se ha olvidado de que teníamos que haberse visto ayer, y de una porción de cosas, y estoy verdad bastante apurado". MAIZ al tono acusativo comenta que "aquí se olvidan muchas veces", pero que en cuanto vea a ROGERIO le dirá que REJANO lo está buscando con verdadera urgencia. MAIZ siempre contesta en forma ruda a todo mundo e inclusive al mismo personal de la Embajada, pero en este caso se dirige a REJANO llamándolo JUANITO y le habla con mucho comedimiento.

1. VICTOR MANUEL GUTIERREZ, HEAD OF THE PARTIDO GUATEMALTECO DEL TRABAJO (PGT-Guatemalan Communist Party), IN MEXICO, SAID ON 24 MARCH THAT THE PGT IN GUATEMALA REGRETS THE WAY IN WHICH THE GUERRILLA FIGHT HAS DEVELOPED THERE. ACCORDING TO THE PGT, THE RESULTS OF THE GUERRILLA FIGHTING HAVE NOT BEEN SUCCESSFUL BECAUSE THE 13 NOVEMBER GROUP (NUMBER OF NOVEMBER 1960 ATTEMPT TO OVERTHROW THE GUATEMALAN GOVERNMENT) HEADED BY MARCO ANTONIO YON SOGA, IS NOT IN ACCORDANCE WITH THE POLITICAL CONCEPTS OF THE COMMUNIST STRUGGLE. FORCED TO FIGHT WHEN CONDITIONS WERE NOT ADVANTAGEOUS FOR THEM. ACCORDING TO THE PGT THE RESULTS WERE DISASTROUS, WITH THE LOSS OF "MIDDLE RANK COMMUNIST PARTY MEMBERS AND NATIONAL LEADERS." THE PGT CONSIDERS IT A "MIRACLE" THAT PAZ TEJADA WAS ABLE TO ESCAPE. HOWEVER, THE PGT STILL BELIEVES THAT THE GOVERNMENT OF MIGUEL YDIGORAS FUENTES, PRESIDENT OF GUATEMALA, WILL SOON FALL.

2. THE MAIN HOPE OF THE PGT NOW HINGES ON THE ACTIONS OF THE GUERRILLA GROUP ORGANIZED AND ARMED IN MEXICO. (FIELD COMMENT: IT HAS BEEN REPORTED PREVIOUSLY THAT THE 13 NOVEMBER GROUP IN MEXICO HAD CROSSED THE MEXICAN/GUATEMALAN BORDER SUCCESSFULLY AND HAD ESTABLISHED A SECOND GUERRILLA FRONT.) THE PGT BELIEVES THAT IT SHOULD CONCERN ITSELF WITH THE SURVIVAL OF THIS GROUP "EVEN IF THE POLITICAL CRISIS SHOULD ELIMINATE YDIGORAS". IT BELIEVES THAT THIS GROUP SHOULD CONTINUE TO OPERATE IN THE MOUNTAINS IN ORDER TO ESTABLISH AND STABILIZE ANY DEMOCRATIC REGIME.

3. GUTIERREZ SAID THAT HE HAD MET WITH ROGELIO RODRIGUEZ LOPEZ, (THIRD SECRETARY OF THE CUBAN EMBASSY IN MEXICO CITY.

RODRIGUEZ TOLD GUTIERREZ THAT "THE PERSON FROM CUBA WHO IS GOING TO TAKE OVER RELATIONS WITH GUATEMALA HERE IN MEXICO, STILL HAD NOT ARRIVED." RODRIGUEZ TOLD GUTIERREZ THAT HE PLANNED TO SEE MAJOR ALFONSO PRERA, A LEADER OF THE 13 NOVEMBER GROUP IN MEXICO, ON 24 MARCH.

Kalana 18 de Febrero 1962
"Año de la Planificación"

Dr Rogelio Rodriguez

Me acuerdo ahogado, me alegrar que cuando esta llega a tus manos estén bien en unión de Ester, Roberto y Ben.

Rogelio mucha alegría me dio que me mandaras el retrato, yo creía que con tanto amor te habías olvidado de mí, pero pro que no es así, lo único que con tu nuevo trabajo no te alcanza el tiempo para escribir, me a Ester tampoco, te voy a explicar lo del nuevo trabajo, como tu estas recién casado tienes un nuevo trabajo, que se llama amor.

Rogelio le dirás a Ester que lo que nosotros hablamos de los arcos el día que reciban una carta por algún compañero luego que vaya para esa, te lo voy a mandar, pero que me lo compran así que tengan cuidado al abrir las cartas, sin mas amor de tu abuela que esta loca por verte pues casi hace un año que no te he querido poder escribirte muchas cosas como la segunda declaración de la Kalana, y lo importante que está el pueblo en la segunda etapa del pueblo, con decir que de la Kalana a sí mismo para Camaguey un millón de 7,000 obreros, para el caso de tanta por obreros abandonaron su trabajo para ir a cortar caña como voluntarios, de los campesinos le diré que

ha sido la mas grand que ha habido en Cuba
pague ahora los carrozas no son comerciales
sino la integran los sindicatos de Cuba...
anti de fusion la carroza para la compania
que la integran los obreros a la cual pertenecia
la carroza, quisieras que pudieras ver a esos
obros hablando al compas de sus gustos y
comentarios, ya se acaban aquellas companias, de
nigros solos que trabajaban con la botella de agua
diente en la mano y se acababan a puntaladas
no te canso mas pues tu eres muy ocupado, sin
mas nada el amor de la tia que te quiere como a
un hijo.

Tina

Porque dice tu papino que lo unico que
gusta es que le mandes un retrato tuyo que
se vea bien la cara.

saluda a Abito de mi parte no le daria mandarle
mi saludos tan seguido en dos meses no he
dado ni dos letras para mi, saludos de Abito
y de Carlito

1. LIENVOY (B) reported that Jose Arturo DE LA PENA had been trying to reach Rogelio RODRIGUEZ Lopez, Cuban Third Secretary, on 20 January. Since he was unable to reach RODRIGUEZ, he left a message to the effect that he was leaving Mexico City and on his return he would give the address to which they should send the Information Bulletin of the Cuban Embassy. He said the pressure is a little strong here, since yesterday (19 January) they were picking up all that left the embassy - newspapers and all that" and for that reason he did not go in. He said that he was taking several copies of No. 4 of the Information Bulletin to Coshulla, but that he also wanted No. 5 which contained information about scholarships.

2. Station would appreciate any information Monterrey may have on DE LA PENA.

16:56 JOSE ARTURO DE LA PENA ha estado tratando con insistencia en ponerse en contacto con el cubano ROGELIO ~~RODRIGUEZ~~ LOPEZ, y al no encontrarlo le deja recado en el sentido de que le va a escribir para que lo manden el boletín de información de Cuba, pues él va a salir fuera de la ciudad, pero cuando regrese le dará la dirección para que se lo manden, porque está la presión un poco fuerte aquí, pues ayer estaban recogiendo todo lo que salía de la Embajada, periódicos y todo eso, y por eso él no entró. Agrega que lleva a Coahuila varios boletines del número 4 de información sobre Cuba, pero que también quiere el número 5 donde viene información sobre las becas. MEMORANDUM FOR THE FILE:

FROM: LDPuckett

SUBJ: Rogelio RODRIGUEZ Lopez (P-7365)

1. Subject was under LIEMBRACE surveillance on 20, 21, and 23 October 1961 (see surveillance reports in P-7365 which should have been routed to COS by Hazlett) with no conclusive results re student contacts.

2. The surveillance was cancelled (see reports) because of the continued presence of Mexican Secret Service agents and vehicles in the area of the Cuban embassy - a problem which has plagued our surveillance attempts for months. Consequently, the team has not been able to mount a prolonged surveillance at the Cuban Embassy.

3. After 1 January 1962 the team can make another attempt on subject if so desired by the Chief of Station.
