ACTION REQUIRED - REFERENCES

1. Forwarded under separate cover as Attachment A are two LIENVOY transcripts of 12 November 1963 and two LIENVOY transcripts of 13 November 1963 which Headquarters may consider for transmittal to Station Stockholm.

2. Forwarded under separate cover as Attachment B is a photograph of an unidentified male (who was accompanied by an unidentified female whose photograph the Station asset did not obtain) who visited the Soviet Embassy at 1400 hours on 12 November 1963. The Station believes this male is identical with Subject since the male in the photograph is the only unidentified male who was also accompanied by a woman and, secondly, this male appears to be a nordic type. The Station recognizes, however, that Subject may have only claimed to be a Swede for cover purposes.

3. The following is the comment made by Douglas J. FEINGLASS, the Station's LIENVOY translator, concerning Attachment A:

"The exact spelling of this name could not be determined. He started by saying that it is - W - A - N.. and then stopped, emphasizing the two dots above A. It is very strange that he, being a Swede did not seek the aid of his Swedish Consulate, but applied to the Soviet Embassy and asked for a man, whom he met by chance (?) in a restaurant. But stranger still is the response of the Embassy officials, who went out of their way to find a ship for him. Usually requests of this nature are brushed aside and quite often in a very rude manner. Judging from his non-British accent and almost flawless English, he must have lived in the United States or Canada for quite some time." (The Station REWOOD officer agrees with FEINGLASS' comment regarding the usual reluctance of Soviet Embassy officials to help in a matter of this type.)

4. Station Mexico has no record of any member of the Soviet Embassy travelling to Oaxaca during this period.

5. Station Mexico has no traces on Subject.

2. The cryptonym LIENVOY-8 in HMMA-20408 dated 19 December 1962 should have been LIENVOY-6. Headquarters noted that LIENVOY-6 had been omitted and called this to the attention of the Station in HMMW-11457 dated 1 April 1963. It was not noticed at that time that LIENVOY-8 had been included in error in the project renewal request instead of LIENVOY-6.

20-68-69	Yugoslav Embassy (connected 23 September 1963)
20-68-23	Yugoslav Embassy (connected 23 September 1963)

Headquarters will note from the above that three lines were disconnected in order to cover three Yugoslav lines. Two of the lines which were disconnected were Cuban Embassy lines, both were not in use by the Cubans. One was in the apartment which had been vacated by Ramon Sinobas and not occupied by other Cubans. The other was a telephone in the Cuban Embassy which was never answered. The Cubans are trying to get Sinobas' line moved to the Embassy. They have also asked for the telephone company to repair 14-92-14. As soon as these lines are working again, coverage of two of the Yugoslav Embassy lines will be dropped in order to pick up all the Cuban lines which are presumed to have a much higher priority.

3. Processing of LIENVOY Information

The Station continues to receive full transcripts in Spanish on the Cuban lines (three), the Soviet Embassy lines (five), and as of 18 and 23 September the Yugoslav lines (three). These transcripts are received each morning for the day before. During September, the LIENVOY monitors transcribed 1396 pages in addition to the daily resumen.

The outside translators now working on LIENVOY transcripts are Orville HORSFALL, staff agent, who is used for almost any backlog which begins to occur.

David B. SCHLAGETER, field contract agent, who transcribes the Czech take.

Victor W. OBOLD, career agent, who transcribes the Yugoslav portion of the Yugoslav take.

Douglas J. FEINGLASS, staff agent, who continues to transcribe the Russian language portion of the Soviet take.

4. Exploitation of LIENVOY Information

Two leads from LIENVOY of operational interest in September 1963 were:

a. On 2 September 1963 a Russian speaking female contacted the Soviet Embassy and asked for Svyatoslav Fedorovich KUZNETSOV, KGB. She identified herself by name and as a professor from New Orleans. She gave the address of her apartment and asked for a meeting. This lead was promptly followed up by station investigative assets who identified the woman and learned that she was attending a philosophers' conference at the University of Mexico. She returned to the United States on 17 September. All available information was forwarded to Headquarters for passing to ODENVY.

b. MEXI-6135 reported the contact between an unidentified Czech woman and the Czech Embassy.

5. Liaison

On 18 September 1963 Oliver G. GALBOND and Willard C. CURTIS met with LIELEGANT and LIERGO. They also saw LIELEGANT on 20 September.

6. Security

There were no security problems during this month.

7. Technical

There were no technical problems which AREHART could not handle.

8. Personnel

Robert B. RIGGS continues to meet Arnold AREHART each morning before 0800 hours to receive all LIENVOY tapes and transcripts from the previous day. The daily meetings with Victor W. OBOLD and David B. SCHLAGETER, the two EE translators, ~~was~~ transferred on 18 September 1963 from the Station EE case officer to the KURIOT technician, Gregory D. PARMUTH who delivers and receives reels and transcripts from them each day. PARMUTH also acts as a cutout for Douglas J. FEINGLASS.

Paul V. LEVISTER, Headquarters KUTUBE officer, visited the Station from 22 September to 1 October to consult with LIENVOY and LIFEAT case officers in preparation for a report to be written on the two projects as examples of tap operations which produce both positive intelligence and operational leads.

9. Production

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

14-00000

PERSONALITY BRIEF

1. General Lazaro CARDENAS del Rio

As a pro-Communist, anti-United States former (1934-1940) President of Mexico, CARDENAS plays an important role in the political activities of Mexico by virtue of his being the spiritual leader of a great part of the Mexican left. His leftist sympathies appear to fall primarily with the current regime in Cuba (He allegedly is a close personal friend of Fidel CASTRO), secondarily with Communist China, and lastly with the USSR.

2. Braulio MALDONADO Sandez

MALDONADO is a politically unscrupulous pro-Communist former Governor of Baja California. He is a national leader of at least three Mexican leftist organizations: (1) FEP (People's Electoral Front), united single front of Mexican Communists and Leftists; (2) MLN (National Liberation Movement), rabidly anti-U.S., pro-Cuba Communist Front; and (3) CCI (Independent Peasants' Center), radical, anti-Mexican Government organization. Having been banished from Mexico until after the 1964 elections for anti-government activities, MALDONADO is currently in Europe and seeking admittance to the USSR, ostensibly to visit his daughter who is a student at the Friendship University in Moscow.

3. Alonso AGUILAR Monteverde

AGUILAR is a prominent pro-Communist Mexican intellectual who is the titular head of the MLN (National Liberation Movement), rabidly anti-U.S., pro-Communist front. He is a full-time professor at the National Autonomous University of Mexico and maintains active contact with several international leftist and Communist figures. He has recently travelled to Cuba and Warsaw.

4. Jorge Leonidas TAMAYO Castillejos

TAMAYO is a Communist professor at the National Autonomous University of Mexico. He is a leading member of many Communist front activities in Mexico including the CMP (Mexican Peace

50-6-75/3

Committee), the MLN (National Liberation Movement), and the CEM (Circle of Mexican Studies). He has been in contact with several leftist figures of various echelon, including Gen. Lazaro CARDENAS, the Cuban Ambassador to Mexico, and Polish, Soviet, and Chinese Communist officials. TAMAYO's son has studied in Warsaw and travelled to the USSR and Communist China.

5. Jose David ALFARO Siqueiros

ALFARO, one of Mexico's most prominent artists, has been imprisoned for eight (8) years as a consequence of the role he played in the Communist-inspired railroad strike of 1959. He is a leader of the PCM (Mexican Communist Party) and has visited the Soviet Union. He fought for the Loyalist Army in the Spanish Civil War and was later arrested in Mexico for complicity in the murder of Leon TROTSKY's secretary. ALFARO has a long history of pro-Communist, anti-U.S. leanings.

6. Roberto ROMERO Adams

ROMERO is an informant for the Cuban Intelligence Service in Mexico.

7. Enrique GONZALEZ Pedrero

Pro-Communist professor at the National Autonomous University of Mexico, GONZALEZ Pedrero has contributed to the writing or editing of at least five (5) leftist publications in Mexico. He is a member of the National Committee of the MLN, has allegedly received training in the Soviet Union, and has travelled to Cuba twice in recent times.

8. Ignacio ACOSTA Lagunas

Pro-Communist ACOSTA, a lawyer, is an aide of General CARDENAS and a leading member of the MLN. He frequently has contact with high-level personnel of both the Cuban and Soviet Embassies in Mexico City. His political activities include travel to Cuba and the Soviet Union, aid in the management of the Communist Trade Fair in Mexico, and a great deal of participation in promoting sympathy for the Cuban Revolution in Mexico.

9. Direccion Federal de Seguridad - Federal Security Police

The principal functions of this security unit are to:

- (1) Provide a plain-clothed security detail for the President,
- (2) maintain an extensive telephone tap activity on both the Rightist and Leftist political opposition forces, and
- (3) perform investigations and arrests of primarily political offenses. The unit's agents are largely poorly trained, insecure, and unreliable. Their professional characteristics are best described as being dishonest, cruel, and abusive. The position, at this moment, of Manuel RANGEL Escamilla as Director General of DFS is precarious.

10. Politica

A Marxist anti-U.S. semi-monthly magazine published in Mexico, Politica is printed by Talleres Graficos de Mexico, the same shop which prints La Voz de Mexico. In addition to the modest revenues derived from a circulation of 15,000 to 25,000, Politica is financed by the Soviet Embassy, the MLN, the PPS, and possibly, the Cuban Embassy. As an indication of the Mexican government's assessment of the capability of this magazine to influence public opinion, it is worthwhile noting that Politica frequently experiences a great degree of difficulty in printing and circulating itself due to the government's repressive efforts.

11. Movimiento de Liberacion Nacional (MLN)

Organized under the influence of the PCM in August 1961, the MLN today is dedicated to the furtherance of the mutual interests of its adherents who are found primarily in the ranks of the PRI, the PPS, the PCM, the CNC and the UGOCM. The MLN's objective is to gain leftist political representation in the government by inciting PRI to accept leftists into its camp. As a consequence of this objective, the mission of MLN is to generate evidence of popular leftist sympathy by means of fomenting agitation among the popular, labor, and peasant masses.

12. Confederacion de Trabajadores de la America Latina (CTAL)

The CTAL has recently been replaced by the CUTAL (Single Confederation of Latin American Workers). Until recently, the

-4-

pro-Communist, CTAL, which is described as being the liaison bureau of the WFTU (World Federation of Trade Unions) whose headquarters are in Prague, was headed by Vicente LOMBARDO Toledano.

13. Prensa Latina

Operating directly under the Cuban Communist regime, Prensa Latina is ostensibly a press service. In reality, however, it is the official propaganda organ of the Cuban Government. Prensa Latina works closely with Tass, the Soviet Agency; with Hsinhua, the Chinese Agency; and with Cetepka, the Czechoslovakian Agency.

1. Reference is made to your question about the type information needed on GUTIERREZ. Headquarters is interested in "current" information on his activities, and especially on his travels and his contact with Manuel VEGA Perez, Chief of G-2 at the Cuban Embassy in Mexico City. The comment on HMM-7289 regarded only the non-dissemination of the report, and was not intended to discourage the Station from reporting information on meetings between GUTIERREZ and VEGA.

2. Headquarters would appreciate receiving, on a continuing basis, pertinent information on GUTIERREZ extracted from the LIENVOY take.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: TDY to Mexico City

1. After taking a good look at LIENVOY and LIFEAT, I would agree with the persons I talked with in Mexico; they maintain that any well-run tap operation should produce substantial intelligence information, provided the targets are of intelligence interest, and provided also there are people at the station who look for it and are able to recognize it. The case of LIFEAT is interesting in this respect. It has been deprived of its most productive lines in favor of LIENVOY, and yet its intelligence production compares favorably with that of the other productive taps, except LIENVOY.

2. Mexico has people who can detect any little item of intelligence significance. This includes the Chief of Station, who goes over the highlights of the previous day's take every morning and marks certain items for action by station case officers or reports officers. The reports officers work on copies of the take at the same time.

3. There are several aspects of LIENVOY that make it an excellent operation and an outstanding producer of intelligence. I will describe them in detail when my notes get here from the station. The principal factors in the success of LIENVOY seem to be the following.

a. The agreement made with top Mexican officials, unlike many such agreements elsewhere, is as much in effect today as it was at the start: the targeting is not based on personal politics; the intercept staff has stayed on the job; the equipment is considered to be on loan from CIA.

b. The native monitoring staff has reached a peak of effectiveness that everyone at the station praises very highly.

c. The station is organized to handle the take speedily as soon as it comes in. The Chief of Station, the case officers, the reports officers, all work on it at the same time and exchange views on hot items. They do not let reports backlogs accumulate.

~~SECRET~~

d. Each new item on a target person is linked to a past history; what appears as a fragmentary bit in a conversation becomes a meaningful development in a continuous story. Continuity on the job makes this possible.

e. The equipment is kept in good working order by complete cleaning and checking of each unit once a month. The 32 units in use today are those installed in 1959.

4. A detailed description of LIENVOY and its counterpart LIFEAT should provide good models with which to compare other tap operations. It should give criteria for good procedures. It should give some idea of the desirable size of such operations, considering the available targets, the size of the station, and the other tasks and operations of the station. It should show what the station puts into its tap operations and what it gets out of them. LIENVOY and LIFEAT are an interesting example of two interacting operations, one joint and the other independent.

5. My stay in Mexico was as interesting and fruitful as it was enjoyable. And I hope it was not too great a burden on the station.

DIZTAG diplomat stationed in Caracas planned to travel alone by plane to Mexico City via Panama carrying a diplomatic pouch for turnover in Mexico and return to Caracas with diplomatic mail received from DIZTAG couriers in Mexico. This was reported to Headquarters, Caracas, and Panama as a possible opportunity to obtain or copy these pouches. (MEXI-5681)

c. On 7 August this project revealed contact between the Partido Popular Socialista and the Soviet Embassy. Roberto JARAMILLO Flores, national leader of the Juventud Popular Socialista, the youth organization of the Marxist Partido Popular Socialista, arranged for an urgent meeting with Nikolaiy Sergeyevich LEONOV, Third Secretary and Cultural Officer of the Soviet Embassy. It will be recalled that LEONOV went to the Soviet Union and acted as interpreter for Fidel CASTRO on his visit there earlier this year. MEXI-5705 transmitted a report on JARAMILLO's contact with LEONOV.

d. On 5 August LIENVOY reported the presence in Mexico of one Doctor Paul BARAN who was in contact with Cuban Embassy officials and prominent Mexican Marxist intellectuals. BARAN appeared to be on a trip throughout South America. A check of Station files revealed that this was probably identical with Paul Alexander BARAN, Russian born naturalized U. S. citizen and professor of economics at Stanford University, Palo Alto, California. BARAN has visited Mexico in the past and made contact with American Communists and Mexican leftists. This information was sent to Headquarters in MEXI-5735 for dissemination to ODENVY.

e. On 12 August William ROSE, who identified himself as a student from the United States studying at the University of Mexico (UNAM) asked for an interview with Vicente LOMBARDO Toledano, Secretary General of the Popular Socialist Party (PPS). ROSE claimed to have letters of introduction to LOMBARDO from labor leaders in the United States. A check of Station files revealed William Maurice ROSE, 1474 Federal Way, Salt Lake City, Utah, as a student at the UNAM. This report was sent to Headquarters in MEXI-5752 for dissemination to ODENVY.

f. On 1 August Henry WALLSCHMIDT, 3662 Carrington Avenue, Los Angeles, California, contacted the Soviet Embassy and volunteered his services to them. The details of this contact were forwarded to Headquarters via HMMA-21905 for dissemination to ODENVY.

g. On 7 August a person who claimed to be a U.S. citizen with a name which sounded like ARNERO contacted the Soviet Embassy and referred to a previous visit at the Embassy when he discussed information on ship movements. He also asked for asylum and made an appointment to see Oleg NECHIPORENKO, Soviet Vice Consul and KGB officer. A person of American appearance was photographed by LIENVOY at the time of the arranged appointment. A sanitized copy of this photograph together with information from LIENVOY was passed locally to ODENVY. MEXI-5784 forwarded the report to Headquarters.

h. On 9 August LIENVOY reported that an American pilot with wife and small son were at the Cuban Embassy trying to get a visa to go to Cuba. MEXI-5794 reported details for Headquarters. ODENVY was advised locally after receiving Headquarters' authorization.

i. LIENVOY covered the activities of Barry Terry PRIMUS, New York actor who was expelled from Mexico on 19 August for participating in Marxist-Communist public disturbances on 18 August. See MEXI-5854 and 5855 for further details.

j. On 20 August Moe FISHMAN, Secretary of Veterans of the Lincoln Brigade in the U.S. asked the wife of David Alfaro SIQUEIROS how the Brigade could help free SIQUEIROS. FISHMAN also made an appointment to meet with Margarita NELKEN, prominent Spanish Communist exile. MEXI-5864 transmitted this report to Headquarters for dissemination to ODENVY.

5. Liaison.

As reported in reference Willard C. CURTIS met with LITENSOR to arrange for a sensitive PRUMEN case on 15 August 1963. The case is still pending.

6. Security.

There were no security incidents within the project during this month.

7. Technical.

There were no technical problems which AREHART could not handle.

8. Personnel.

There have been no changes in personnel since the last report.

9. Production.

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

LIEUVOY, ops
13 September 1963

Mr. Whitten:

I just learned that Mr. George sent his note to Mr. Scott directly to Colonel King. The note mentions my friends, Paul V. Leister. Perhaps Col. King would want to jot down my true name somewhere, GERARD CAMPAGNA.

I read our LIEUVOY Project file yesterday and got excellent additional information from Tex Puckett. It's always encouraging to get into such good operations.

Jerry Campagna

Next week I would like to read further into LIEUVOY and LIFEAT, especially the monthly reports and the disseminated reports.

12 September 1963

Dear Willard:

This may seem to you like a voice out of the void, but I always carry in my mind your repeated invitations to visit you and remember clearly your acquaintance and kindness to my brother. Strangely enough it seems to continue to be true that the only escape from this jail-like desk is back to my old area where I never expected to return--I even had one this Spring. Just now I have a specific reason for wanting to visit your place, that is, in addition to our own personal reasons.

For some time I have been bent on trying to push for more positive information from taps and audio. I realize that it is taken for granted around the world that the purpose of taps and audio is for operational leads, particularly in the KUDSK field.

In one or two places in the world, positive production is outstanding and we have been making a study for some time trying to see why it works in some cases and not in others. One of the outstanding examples is LIFEAT and especially LIENVOY. These seem to be far ahead of other similar operations around the world even though they seem to approach the problem somewhat similarly. It occurred to me that we might find out what makes yours so especially effective by having one of my people go to your station for a few days to talk with you and your officers and get the detailed story. I could then take another look at the other operations and see what's missing or what's wrong. I'm sure this would be of great help to the place as a whole. If you agree, I will send Paul V. Levister (Iden), the editor of our Foreign Intelligence Series (our Staff doctrinal papers, the first few of which have been dispatched to you). He could be in Mexico City on or about 23 September, or any time thereafter that is more convenient for you and your people. Could you let us know your reaction by cable, and if it's favorable, when you would prefer to have Levister arrive. We would confirm his ETA by cable.

Galbond is leaving tomorrow to make a visit down your way and I have asked him to be kind enough to pass this to you. The desk here concurs in our interest subject to your approval.

On 7 August 1963 the Station EE case officer requested LIENVOY coverage of the Yugoslav lines. Arrangements are being made to put these lines in within the near future.

3. Processing of LIENVOY Information.

The Station continues to receive full transcripts in Spanish from ten lines (five Cuban Embassy and five Soviet Embassy). DIR-60764 dated 13 August 1963 asked the Station to send to Headquarters one copy of the full transcripts from the Cuban Embassy lines. These are being forwarded on a weekly basis. The first group is being forwarded as an attachment to HMMA-22000 dated 21 August 1963. If they do not please Headquarters officers who desire them, it is requested that the Mexico Station be promptly advised with any suggestions for changes.

On 6 August 1963 Orville HORSFALL, staff agent, arrived in Mexico to work presently as a unilateral monitor but eventually as the supervisor of a tap center either under LIENVOY or LITEMPO. He has established himself outside and is presently at work eliminating the backlog of Soviet tapes.

Douglas J. FEINGLASS continues to do the Russian from LIENVOY, the Russian from two LIFEAT lines on Soviet targets, and the Russian from the LIPAWN audio operation. In addition, FEINGLASS sends clipped transcripts to the Station ready for 201 files.

4. Exploitation of LIENVOY Information.

HMMW-11831 dated 6 August 1963 indicated that Headquarters was not well informed on the way the Mexico Station exploits operational leads from LIENVOY. The outside staff agent, Arnold AREHART has instructions to alert the Station immediately if a U.S. citizen or English speaking person tries to contact any of the target installations. This is done by a telephone call from outside the tap center at a pay phone to Robert B. RIGGS inside the Station. Emergency meetings are arranged in double talk (meeting for coffee or lunch). RIGGS meets AREHART within fifteen minutes at a pre-arranged downtown location and receives the reel with an extract of the pertinent conversation. The reel is then taken to the Station and given to the case officer responsible for the target the person was trying to contact. Headquarters is notified by cable of the action taken. Only in rare cases is information on a U.S. citizen passed without prior Headquarters approval.

Other leads appear in the full transcripts or daily resumen. They also are exploited by the Station case officer responsible for the target where the lead appears. For example, on 12 August 1963 Boris KAZANTSEV, recently arrived Counselor of the Soviet Embassy and former defection target in Mexico, called his wife at their residence. The number was not listed but was immediately checked by Raymond GERENDE who determined that the number was the switchboard of the apartment house where KAZANTSEV and several other families live. The reason the Station checked out this number was to put unilateral coverage on it if possible; however, the switchboard was beyond the Station's capability to handle.

Maryknoll priest Felix McGOWAN contacted the Cuban Embassy on 31 July 1963. MEXI-5565 reported details of this contact. This cable was sent to Headquarters for dissemination and action by ODENVY.

Professor WEBB (fnu) of the University of Louisiana contacted Mexican Communist Jorge L. TAMAYO Castillejos, prominent Mexican Marxist intellectual and professor at the University of Mexico and arranged to meet with him on 31 July 1963. MEXI-5568 reported this contact to Headquarters for dissemination and action by ODENVY.

Bartolo (fnu) contacted former Governor of Baja California, Braulio MALDONADO Sandez on 16 July 1963 regarding the sale of Cuban pesos. MEXI-5569 reported this contact to Headquarters for dissemination and action by ODENVY.

5. Liaison

On 15 August 1963 Willard C. CURTIS met with LITENSOR to arrange for a sensitive PBRUMEN case (MEXI-5789 reported the details of this meeting).

6. Security

There were no security incidents within the project during this month.

7. Technical

There were no technical problems during this period.

8. Personnel

Orville HORSFALL's arrival is the only change in personnel since the last report and he is handled as an independent agent by the Station, with no LIENVOY personnel aware of his presence in Mexico. Robert B. RIGGS sees HORSFALL daily to deliver and pick up tapes.

9. Production

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

ACTION REQUIRED - REFERENCES

References: A. MEXI 5448

B. MEXI 5467

1. The referenced cables describe two recent incidents in which the Mexico City Station made use of LIENVOY information to take investigative or punitive action against security suspects. The first reference reported the identifying and "trapping" of a PEPRIE citizen who was offering his services to the Cuban Embassy, and the second reported the deporting of a Cuban IS agent identified by LIENVOY material.

2. In both of these cases, there seems to have been departure from the extreme caution with which the Mexico Station has always handled the LIENVOY material. Admitting that the cables do not set out enough facts to enable us to make a final judgment, we still feel a little uneasy about this use of LIENVOY material. In the first case, the Station sent an agent to the suspect's hotel, posing as a Cuban Embassy official to "trap" him into revealing his intentions. The scheme, which was admittedly clever, succeeded, but we were concerned about what would have happened if the Cubans themselves had decided to contact the individual. Would not the LIENVOY operation have been exposed to some extent? We grant that the Cubans and other bloc personnel in Mexico City may suspect LIENVOY exists, but they do not know it --- yet. Incidentally, we had no traces on the PEPRIE involved.

3. The second case involved the detection, apprehension and deportation of a Cuban IS agent whose whereabouts were learned through LIENVOY. From the few facts we know about this case, we cannot really judge the possible risk to LIENVOY. The Mexico Station created LIENVOY and has always guarded its security with scrupulous care. Has there been a change?

4. Finally, please note that both these cases should have been reported to Headquarters before action was taken. In general, arrests, deportation, trapping, or other action against security suspects should be approved by Headquarters, except where in the opinion of the Chief of Station, the added time needed would seriously impair ODYOKE security or the security of our operations. The Mexico Station has always done this, and the coincidence of two recent cases where it was not done inspires us to query you. Please let us know your views.

3. Processing of LIENVOY Information.

Of the lines covered, all are of interest to KUBARK and approximately one half of them are exclusively for KUBARK. The LIENVOY tap center monitors continue to prepare daily summaries of significant items from all lines. In addition, they prepare full transcripts in Spanish for ten lines (five Cuban Embassy lines and five Soviet Embassy lines). These transcripts are used by the Station Case Officers for Cuban and Soviet operations in following leads of interest.

On 5 June 1963 Douglas J. FEINGLASS, Staff Agent, arrived in Mexico to replace Howard G. SAFARANO, the Station translator for Russian language conversations appearing on LIENVOY and LIFEAT lines. SAFARANO departed PCS on 18 June thus freeing an inside slot for use by an operations officer. FEINGLASS' usefulness to the Station is handicapped by his inability to transcribe the Spanish portion of the reels from the Soviet coverage. This, despite Headquarters assurance that he could do these transcriptions. However, he has settled into outside living conditions with a minimum of difficulty. For the present, a monitor from the LIENVOY tap center is transcribing the Spanish portion of the above take. There is a Station backlog of Soviet tapes numbering about 50 which accumulated during the period when FEINGLASS was trying unsuccessfully to transcribe the Spanish. The backlog is being retained until Orville HORSFALL arrives. In addition to the Russian transcriptions, FEINGLASS also clips the transcripts for individual dossiers thus relieving the Station Case Officer for Soviet operations of a clerical task. After the arrival of HORSFALL, the Mexico Station will review requirements for outside translators and make recommendations for future use of FEINGLASS.

In early June to support the AMROD operation, the Station requested full transcripts of the Cuban Embassy lines. In addition, Thomas G. URQUHART (ps) while on temporary duty in Mexico was given access to the LIENVOY tap center to review the traffic on a current basis.

4. Exploitation of LIENVOY information.

Coverage of the Cuban, Czech, and Soviet Embassies provided details of their personnel, their contacts, travel and other useful CE data. In most all cases of official travel, LIENVOY gave the Station advance information when reservations were made. Confirmation of the travel is, of course, obtained through the LIFEIRE project.

The traffic is reviewed for English speaking persons who might be U.S. citizens making contact with Soviet or Soviet Satellite Embassies for political or other reasons. On 20 May 1963 an English speaker identifying himself as Albert Kennedy called the Soviet Embassy and requested political asylum for himself, his wife and seven children. Subsequent investigation revealed that he was also a protection case at the U.S. Embassy in Mexico. Appropriate U.S. agencies were advised of Subject's contact with the Soviet Embassy.

5. Liaison.

During this reporting period there were no meetings between the Chief of Station KUBARK and LITENSOR; however, regular contact was maintained with LIELEGANT and LIERGO.

6. Security.

There were no security incidents within the project during this month. As reported in MEXI-5170, 26 June 1963, the true name of a KUBARK case officer was revealed to the Cuban Embassy by a caller who refused to identify himself. From the transcript it appeared that the Cuban Embassy was not interested in making contact with the caller who claimed to have details of KUBARK operations in Mexico.

7. Technical.

Arnold AREHART, staff agent, has kept the equipment working

effectively. As Headquarters is being advised by separate cable, the Mexico Station does not plan to replace the present LIENVOY equipment until the next Presidential candidate is named, assuming of course that this will occur within the next few weeks.

8. Personnel.

On 17 June Robert B. RIGGS resumed meeting Arnold AREHART and routine case officer functions for LIENVOY. Gregory PARMUTH meets Douglas J. FEINGLASS daily to deliver and receive the Soviet Embassy traffic. PARMUTH's assistance in obtaining living quarters and necessary sterile office furniture was responsible for the ease with which FEINGLASS was able to settle into his outside staff agent status.

In the opinion of Thomas G. URQUHART, who has spent some time inside the tap center, Arnold F. AREHART is doing a commendable job in the management of the center. In addition, AREHART has a general awareness of the take from each line. When leads of interest appear, he notifies the Station immediately so that action can be taken.

Willard C. CURTIS contacts LIENVOY-2 when the Station desires contact with the Mexicans directly or when AREHART is absent.

9. Production.

The volume of paper produced by this project is hardly reflected in formal disseminations, operational cables, and dispatches which numbered 39 during June. The daily summaries, the transcripts from two Czech lines, five Soviet lines, and five Cuban lines are retained for background use in Station files. They could be more fully exploited for reporting purposes if personnel were available.

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

VICTOR ALONSO pregunta al maestro JUAN ALONSO que si ya leyó la "Revista", refiriéndose al artículo de hoy en la revista sobre el "Militante". J. A. asiente y agrega que se acuerda el caso, pero que sin embargo tiene un parámetro muy bueno, donde dice que "Militante" lo regresa. Continúa diciendo que le responderá con argumentos objetivos y sistemáticos para hacer en la cosa personal, a revanchando el punto para volver nuevamente sobre la ley electoral. Cambia la tema VICTOR pregunta que qué le parece la opinión, refiriéndose al artículo de él en siempre. J. A. responde que "Militante" es bueno y que se le da la idea que a partir de este momento, que "de allí hubiera podido salir un cuartito y platicar" de la jerarquía y demás; el artículo es muy bueno y es muy importante por el recado a "Militante", sino por el "Militante" en sí. VICTOR comenta que lo de "Militante" lo "Militante" dice que lo "Militante". VICTOR dice que "Militante" de "Militante" lleva a la atención". J. A. responde que "Militante" a VICTOR que "le lo otro lugar platicamos, pues en principio se aceptó la introducción de nuevos miembros; ayer en la reunión, y aunque no se discutieron individualmente a los candidatos, sí se aceptó en principio la idea".

J. I. A. pregunta a la Esbajala Cubana por el caso de J. A. en contacto con J. A. pregunta a su vez a J. A. sobre las cosas que le mandó. J. A. asiente y agrega que "de hecho que los casos se han resuelto". J. A. dice que lo que le extrañaba era que "Militante" no había pasado fue que por desgracia él se le pudo dar a anterior de "Militante" con "Militante" de "Militante" interés en verlo "porque tengo algo" de "Militante" de "Militante" pero van a "Militante" de "Militante". J. A. pregunta que mismo lugar que "Militante" aló la voz de "Militante" que sea en otro lugar como por ejemplo en el "Militante" en las calles de "Militante" por el caso "Militante" de "Militante" de él tiene un cargo sumamente importante que no le da tiempo y le gustaría que fuera lo más pronto posible. responde que ahora mismo como a la "Militante" de "Militante" colorando que está vestido con un trapo gris y sucio.

MONTAÑO se pone en contacto con GUILLERMO GARCIA y RAMON,
quien manifiesta que la carta que quedó de enviársela al General
no la mandará hasta la semana entrante, ya que casi todos es-
tos últimos días ha estado muy enfermo. MONTAÑO se lo comu-
nicará al Gral. CASILLAS. (P-1993) copy

14:28

MONTAÑO GUILLERMO GARCIA comunica al Lic. JOSE GUILLERMO y al Dr.
GUILLERMO GUILLERMO, de parte del Gral. CASILLAS, que mañana por
mañana de las madres no resultaría como que se vieran, ade-
más de que el General tiene otro compromiso previo. Por tal
motivo los espera el sábado a las 12:00 hs. en su casa de
Andes. Ambas aceptan estar presentes.

Posteriormente el Dr. MONTAÑO indica al Lic. JOSE GUILLERMO
PARRERO que en vista de que el sábado tendrá que ir a casa
del Gral. CASILLAS se pospone la reunión que tenía prevista.

14:34

VICTOR MONTAÑO queda en desayunar mañana con MONTAÑO GUILLERMO
a las 09:30 hs. en Seaborn's de Durango. (7354) (7752) copy

19:09

MONTAÑO GUILLERMO dice a MACHO ACOSTA que MONTAÑO tiene un texto
le pide que haga el mismo favor de ayer. MACHO indica que
ya lo recogió y le distribuyó. ACOSTA comenta que está
bien, pues es una cosa que tiene actualidad.

19:41

FERNANDO MONTAÑO felicita calurosamente a AL MONTAÑO GUILLERMO
por el documento de hoy, es excelente. MONTAÑO le pregunta
que si leyó lo del milite que se armó con la ida alá (MONTAÑO
fué a la sesión plenaria del Congreso de Procuradores con
un ramo de rosas). FERNANDO asiente. MONTAÑO dice que la cosa
está un poco cambiada, pero estuvo sensacional. FERNANDO la
felicita nuevamente "qué bueno que no te denantes". MONTAÑO
comenta que "no, tengo que seguir luchando", y agrega que
a DAVID le pareció magnífico el documento del AL. FERNANDO
indica que le escribió MONTAÑO GUILLERMO, y a pesar de que anda-
mos con muchos líos, pero MONTAÑO por luchar, como de eso
estoy seguro." (3004) (4373)

21:14

Desde la Escuela de Ciencias Políticas, MONTAÑO GUILLERMO dice
a MONTAÑO GUILLERMO quien se encuentra en el AL, que está
platicando con los estudiantes y quieren ir a Salvador 30.
MONTAÑO no los puede esperar pues tiene un compromiso a las
22:00 hs. MONTAÑO pone a MONTAÑO en contacto con el estudiante
VALERO. MONTAÑO explica que en la última reunión se llegó
al acuerdo de que el Comité del D.F., sea el "Comité del
Comité Nacional" y como a mí se nombraron encargado de la
Comisión de Organización del Movimiento, quiero ponerme en
contacto con ustedes para llevar adelante lo de las brigadas,
así como para que inviten a muchachos serios y responsables
que quieran dar parte de su tiempo al Movimiento". MONTAÑO
propone conversar ampliamente el sábado en la C.U.

El Cnel. CAMERAS saluda al Lic. RODOLFO HERNÁNDEZ SÁNCHEZ y le agradece la atención que tuvo con el vocal de la Comisión, así como la indicación que le hizo sobre cómo resolver el problema. RODOLFO dice que fue de acuerdo con la propia indicación del Lic. CAMERAS. Agradece que estime mucho el honor de llamarlo, y le brinda la oportunidad de conocer el interresantísimo programa de CAMERAS para la Comisión del Río Pánuco. CAMERAS dice que son programas del señor Presidente por el caso que tiene de regular a Coahuila y sobre todo aquella parte de la Mixteca que es una de las zonas más erosionadas que hay en el país, y de gente con mucha pobreza; y el programa se presentó por la indicación del señor Presidente para este año. Lo agradece sus frases de estímulo, lo saluda afectuosamente y se pone a sus órdenes. CAMERAS replica que al contrario "soy yo quien está a las órdenes, oficial y privadamente".

A las 18:05 FERNANDO CARMONA preguntó a ESTELA AGUILAR por
ALONSO. ESTELA informó que salió hace un momento, que iba a
poner gasolina al coche y de allí iba al M.I.N. donde tenía
una cita. ESTELA dice que no ha llegado al Ministerio, pues
incluso no hay quien abra las oficinas. ESTELA se alarma.
Posteriormente ESTELA ha estado tratando de comunicarse a las
oficinas del M.I.N. sin lograrlo. A las 20:33 CARMONA vuelve
a preguntar a ESTELA por ALONSO. ESTELA indica que no lo ha
localizado y que él tampoco ha llamado a la casa y esto ya
la está preocupando, agregando que esperará una hora más.

REUNION

sábado 11 mayo 1966.

03:30

En la cena con el Lic. AGUILAR que anoche estuvo preocupado. Esto indica que se fue a tomar un café con la periodista con quien tuvo una cita, al café Florida. Cambiando de tema FERNANDEZ pregunta que si vio el último número de Avante. AGUILAR niega. CAMACHO agrega que "el ilustre licenciado vuelve a meterse con nosotros". AGUILAR pregunta que en qué forma. CAMACHO dice que negando nuevamente que el PPS esté en el M.L.N., además trae una entrevista que el Lic. LOMBARDOS se cedió al Saturday Evening Post "de lo más chistosa" y CAMACHO hasta ha pasado un artículo en su artículo. AGUILAR dice que es muy raro, pues él vio hace unos días un documento de la J.G.C.M. de Altar Son. en que manifiestan no comprender la actitud de sus dirigentes en contra del M.L.N. y hasta califican dicha actitud de anti-patriótica. CAMACHO intenta no tener dicho documento en su poder pues podría utilizarlo para atacarlos en su artículo. AGUILAR no está de acuerdo con CAMACHO ya que eso sería tanto como colocar a estas gentes contra la pared y "nuestra actitud debe ser al contrario, debemos tratar de irnoslos ganando a ellos y a todos los que se pueda". CAMACHO dice que entonces solo colocaría contra la pared al Lic. LOMBARDOS, pero que de todas maneras le gustaría que AGUILAR revisara el próximo artículo antes de entregarlo. AGUILAR está de acuerdo y a las órdenes de CAMACHO.

09:03

El tico JOSE CAMACHO que trabaja en Prensa Latina, pregunta al tico FERNANDEZ si se interesa por la suscripción del Boletín de Prensa Informativa de Freila. CAMACHO manifiesta que desea además del Boletín un intercambio de noticias. FERNANDEZ comenta que el precio para las noticias es mayor cuando se trata para periódicos "algunos de que la prensa nuestra no está controlada por nosotros, sino la controlada de la Habana". CAMACHO dice que desea la información y que es correspondiente de la Asociación Extranjera de Prensa y del Movimiento de Liberación Franco-canadiense. FERNANDEZ responde que podría arreglar que la tarifa del Boletín, sustruía el día y Siglo XX sea especial. CAMACHO acepta y pide a FERNANDEZ que pase a Benjamin Franklin 32 docto. 5 para que le entregue el cheque y que los periódicos se los envíe a la casa de su esposa que está en las calles de Av. Jolicoeur.

10:20

AGUILAR CAMACHO, desde la casa del Lic. FERNANDEZ, pregunta por CAMACHO. La esposa de este informa que no está en casa. CAMACHO pregunta que si podría a entregar algunos trabajos (de la prensa). La esposa no sabe para ir primeramente a la imprenta. Posteriormente AGUILAR se pone en contacto con CAMACHO y éste manifiesta que para para la casa de FERNANDEZ.

RAQUEL con acento centroamericano pregunta a RAQUEL de la Embajada de Cuba que si en el avión de ayer no llegó nada acerca de su visa. VERA sin contestar a su pregunta le indica que venga a la Embajada, pero que adelantó media hora a la que habían fijado. RAQUEL allí estará.

12:10

RAQUEL necesita con urgencia para el próximo número de Política fotografías de las reuniones que ha habido en la Asociación Mexicana de periodistas en relación a la paz y además todos los discursos de NIEL CASERO en Rusia. Con relación a lo primero CASERO se las proporcionará. Con respecto a lo segundo ALBERTO procurará conseguirlos y en caso contrario sugiere a RAQUEL se ponga en contacto con FERNANDO ALBERTO a su casa. Posteriormente ALBERTO indica a RAQUEL que ya le tiene una revista Bohemia y dos periódicos cubanos que contienen algunos de los discursos de NIEL en Rusia, solo que no los facilitará en calidad de préstamo pues son de TALLER FRONTERA. RAQUEL mandará a CASERO por el material.

13:39

La Dra. MATILDE ROCHA pregunta a ANTONIO GONZALEZ que si no sabe si el Dr. GONZALEZ es miembro del A.L.S. pues desde antes lo crearon en su cuarto en el Hospital Colonia unos agentes de la Procuraduría y se lo llevaron, incluso del mismo hospital se han interesado mucho por su paradero pero no han sabido nada. GONZALEZ dice que ese nombre no le suena, pero de todas maneras lo pondrá en conocimiento de ALONSO.

15:53

DAVID RUIZ, de la Embajada Cubana, se comunica con el gachupín FERNANDO y le indica que lo han destinado nuevamente aquí; que lo han ascendido y está mejor en todo sentido; que llegó ayer procedente de Cuba; agrega que ha estado tratando de comunicarse con ANTONIO GONZALEZ, pero no le contestan en el banco; y pregunta que si se siguen reuniendo los microcos. GONZALEZ responde que sí. RUIZ irá el próximo miércoles para reunirse con los amigos.

20:34

FERNANDO pregunta a ANTONIO GONZALEZ que cómo se encuentra DAVID. ANTONIO dice que más o menos peorándolo, pues no hay ninguna cosa ni ninguna novedad por el momento. FERNANDO comenta que "por cierto la semana que entra quiero ver si publicamos ese papel de que te decía; todo depende de que podamos juntar los centavos". Cambiando de tema dice que sería bueno que DAVID tuviera en la celda uno de esos aparatos inalámbricos "Walky Talky" para poder comunicarse con todos. ANTONIO pregunta que si realmente se podría. GONZALEZ no lo sabe bien, pero sería cosa de que ANTONIO lo consultara con un amigo que sepa; por ejemplo el hijo de DAVID, FERNANDO GONZALEZ, que es un buen electrónico, pues a lo mejor si se puede. Agrega que esos aparatos tienen un radio como de 5 mil-

metros. ANGELICA dice que le acompañaría hasta la casa y sería fantástico; lo malo es que estarían hablando todo el tiempo y ya no habría ni acción ni trabajo porque ella iba a enterle preguntando a cada rato que cómo se sentía. CAMERON cree que sí habría acción, pues DAVID a cada rato estaría preguntando qué pasó con el abogado; qué pasó con CAMERON; qué pasó con ALONSO, etc. ANGELICA dice que sería tremendo; pero si además le arreglaran un sistema para que DAVID "hablara con todos ustedes!". CAMERON comenta que si eso fuera posible, ya sería lo de menos. ANGELICA cambia de tema e indica que de todas maneras quisiera platicar con CAMERON la semana entrante, porque DAVID insiste en una serie de cosas, desde el punto de vista de la cosa electoral, y ANGELICA quisiera cambiar impresiones. CAMERON arguye que "nosotros tenemos una posición allí que ojalá que él entienda mejor". ANGELICA argumenta que independientemente de eso, ella cree que sí hay algo que se puede hacer. CAMERON dice que "estamos en la onésima fase de reorganización; pero es que no tiene remedio; eso hay que entenderlo; en esto hay que arrancar de paciencia; algunos contrarios pierden la paciencia, de los nuestros mismos muy buenos, como MONTAÑO por ejemplo....yo hasta le decía: mire Doctor, cien mil veces hemos examinado estas cosas y docientos mil más las vamos a tener que examinar si no las resolvemos bien; eso no tiene remedio". ANGELICA de todas maneras quisiera conversar con CAMERON. Note arguye que "pero estamos en pleno proceso de reorganización y espero que en dos o tres semanas se va a sentir esto. A partir del mes que entra yo me voy a hacer cargo del periódico, con el ánimo de hacerlo muy modesto pero que salga quincenalmente". ANGELICA dice que eso será formidable, y a ver si la semana entrante se ven un ratito, pues ella le quiere plantear algunas cosas bastante interesantes. CAMERON acepta.

20:45

MANUEL CAMARGO, desde Toluca, Calif., quiere comunicarse con BRULIO MONTAÑO. CARLOTA la copera dice que éste no se encuentra en la capital. MANUEL dice que llegó con felicidad y llamaba a BRULIO para ver si éste ya se comunicó con el JAMES a Casas Grandes, Arizona, pues es muy urgente que así lo haga "y me escriba a mí lo más pronto que pueda para ver si le digo al JAMES lo que yo le digo en la carta que le mandé". CARLOTA dice que BRULIO ya recibió la carta, pero que va a estar fuera de México unos 10 días. MANUEL dice que están puestos para lo que sea. CARLOTA indica que por allá ha mandado BRULIO varias propagandas, folletos y todo eso. MANUEL dice que está bien, pues él necesita de eso. Termina deseándoles buena suerte.

21:02

Una mujer que dice llamar desde el restaurante Januario en Culiacán, Sinaloa, quiere hablar con BRULIO MONTAÑO. CARLOTA indica que está fuera de la ciudad.

REF: HEMA-21068, 12 April 1963

1. Returned herewith are two reels of LIENVOY coverage of the Cuban Embassy which were forwarded to Headquarters by the referenced dispatch.
2. Three conversations, including the SINOBAS/SCANTLING contact on 8 April 1963 have been excised from EC 11, 8 April, for retention at Headquarters. The conversations immediately before and after the SCANTLING contact were taken out so as not to pinpoint possible interest in that contact.
3. The Station's support in providing these documentary materials is greatly appreciated.

ACTION REQUIRED REFERENCES

FYI

1. Forwarded herewith are brief digests of Cuban Embassy calls monitored through LIENVOY during the first days of April 1963 by Thomas G. URQUHART.

2. A copy of this dispatch with attachment is being sent to COS Panama at his request because of that Station's interest in ARELLANO.

3. Owing to the occasional lack of logging, it was not always possible to ascertain the exact date a particular conversation took place. Hence, some of the summaries are attributed to a period greater than one day.

HIGHLIGHTS OF LIENVOY COVERAGE OF CUBAN

EMBASSY, EARLY APRIL 1963

2 or 3 April 63

A man whose name sounds like "Specia" calls Vega, says he must see him very urgently. They will meet at 14:00 or 14:30.

Victor Rico Galan holds what appears to be social chatter with Sinobas. They mention a mutual friend (unnamed) and note things are getting better.

A man identified only as Horacio calls Buenaventura (Reyes). They talk about hotels and agree to meet at the Embassy at 1730.

The Bolivian Embassy calls for Sinobas about the case of a man named Arrellano or Arellano. Sinobas is out. Bolivian Embassy asks to be called back at telephone 14 08 56.

(Comment: Arrellano is of special interest to PACY)

Maria Lourdes de la Pena calls for Teresa Proenza, who is out. On a further conversation mention is made of Maria Elena (Vazquez Gomez?) and the two parties agree to meet at 2030 at some place located at the corner of Hamburgo and Genova.

Teresa Proenza calls to the fronton for Jose Luis "Azamendi" (probably a jai-alai player). He is out. She leaves a message for him that there is a letter for him at the Cuban Embassy for his daughter and he can come for it.

Vicento Rojo calls Proenza about the bulletin. An envelope was left at the Embassy gate.

Mirna Torres calls Buenaventura Reyes and they hold a sociable talk. She wants to send a package and letter (probably to Cuba) and they discuss the arrival of the plane 6 April. She says she will bring the things to the Embassy before that.

The Bolivian Embassy calls for Sinobas. He is out. (This probably has to do with the Arellano case).

Miss Gomez Sanchez calls for Sinobas, who is out.

Dr. Jaime Brana (visiting Cuban doctor) calls Hotel Carmen room 40 for someone and gets no answer. He then asks for the Cuban nurse in apt. 5, whose name is Graciela "Guty". She is also out. Brana says he wants to speak with Marta Valdez, something about the medical congress.

Brana calls Dr. Fausto Trejo, with whom he seems to have some social relationship. Trejo is out. Brana asks the woman who answers if he left a Czech notebook from KOVO firm at their home. She looks and says she does not see it there.

SECRET

Guillermo Gomez calls for Vega. Gomez is the man who left a letter this morning, which was a letter Vega asked for. Their business seems to have to do with passport and visa details. Gomez travels a lot and will call back when in town, possibly tomorrow.

A number of calls show that Heberto Jorin, the gate man, has a local girlfriend he sees quite often and who also visits him at the Embassy. Her name is not known.

4 April 1963

Elona Vasquez Gomez and Teresa Proenza agreed to dine this evening.

Teresa Proenza spoke to someone about a passage to Cuba for one Margarita Calderon.

Celia Pascual, telephone 25 10 32, describing herself as the sister of Sara, calls Teresa Proenza. Celia says she can take some things over to "Edith" when she goes (presumably to Cuba). Someone's mother is sick.

(Comment: This could refer to Edith Buchaca, whose preoccupation with her mother has been noted in the past).

5 April 1963

Ascua in Havana calls Mariano Garcia. The connection is very poor and the Havana end is hard to understand. They mention travel approval for Rafael (?) Hernandez at telephone 35 44 35 and mention something was arranged for Eduardo Rodriguez de la Vega.

A woman identifying herself only as Socorro calls for Vega about a matter she says he already knows of. He is out.

An American or Canadian calls long distance and says he plans to leave wherever he is, probably Los Angeles, Cal., via Western Airlines, for Mexico.

Immediately after this call someone in the Embassy mentions reservations for Fred Brown from Canada.

Sinobas calls Tomas Marentes, who is out. Sinobas leaves the message that "Ramon called". (Marentes may be the former Governor of Yucatan. He has a plan to send money or passages to someone in Cuba. Sinobas is very anxious to help him and makes a lot of calls about how to do it. Marentes has told Sinobas he has a son working for Humberto Romero at the Presidencia, indicating the son is at Sinobas's disposition. How much this is a matter of mere courtesy could not be determined).

Arellano (the Bolivian deal) calls for Sinobas, who is out, and then asks for Vega. He asks Vega if there is any news, and Vega tells him to drop by on 7 April.

Mias Gomez Arias calls for Sinobas. He is out but will be right back.

~~SECRET~~

3

One Mario or Mariano Zavada or Cebada for Sinobas. They talk about a plan the caller had to send money for passages to someone in Cuba and how the bank in Cuba has stated it is impossible.

Sinobas calls the Bolivian Ambassador about Arellano, who is going to travel from one country to another.

Dolores Gomez Arias to Sinobas (first name basis). She seems to be a journalist, says she wants to meet him to tell him some things.

6 April 1963

No conversations of salient interest noted.

7 April 1963

Largely taken up with several conversations between Jorrin and his girlfriend.

8 April 1963

Angel Hidalgo calls in for Vega, who is out. It appears Hidalgo and a couple of others are to drop by the Embassy in connection with passports and visas.

An unidentified man inside calls Cubana de Aviacion about a Canadian named Fred Brown who was around to ask about a visa. The man at Cubana says that he knows nothing of the matter.

Armons calls Fred Brown at the Hotel Agnes. He is paged in the restaurant. Armons and someone else will drop by the hotel for Brown at 1645. Brown speaks very little Spanish.

B. Material Processed

In January, the LIENVOY LP provided the Station with 47 pages of daily resumes from all lines, 10 pages from the Cuban lines, 26 pages from the Czech lines and 57 pages from the Soviet lines. Thirty two pieces of other information were also received.

A total of 285 reels of recording tape were used during the month. (Note F, Technical).

C. Liaison

The Station continues to provide LITENSOR with situation reports on the Red Chinese-Indian border dispute.

D. Exploitation of Material.

Examples of information provided by LIENVOY were the beginnings and organization of the Central Campesina Independiente (CCI) (see MEXIs 3041 and 3053) and the contact made by a Hollywood television station with the Cuban Embassy in Mexico City in order to set up an interview with Fidel Castro. (see MEXI 3244).

E. Security

There were no known security problems.

F. Technical

The LP was inoperative from 8 January until 18 January. Workmen installing street lights in the neighborhood of the LP cut the cable leading from the telephone central to the LP in several places. Instead of replacing the damaged cable with a new one, telephone company workmen painstakingly repaired it. By the end of the month there were still seven lines out of operation.

G. Production

During January, LIENVOY produced twenty-three (23) reports listed in the attachment. In addition the usual quantity (except for the ten days lost by inoperation - see E above) of CE and biographic materials were obtained.

B. Material Processed

In December, the LIENVOY LP provided the Station with 70 pages of daily resumes from all lines, 38 pages from the Cuban lines, 30 pages from the Czech lines, and 77 pages from the Soviet lines. Fourteen pieces of other material were also received.

The LP was closed for the holidays from 21 December until 2 January.

C. Liaison

As gifts for Christmas, LIELEGANT was given a small, portable Sony television receiver by the Station. He was also given a religious statue by the employees in the LP to which the Station donated part of the cost.

Arnold F. AREHART, LP technician, gave LIELEGANT a paper weight made of plastic with United States coins showing in the center of the weight.

D. Exploitation of Material

Samples of intelligence obtained during the month was the attempt of Vicente Lombardo Toledano to arrange for the entry of a Chinese Communist trade delegation visiting in Brazil to enter Mexico (see MEXI 2839, 14 December 1962), and Japanese Embassy calls on Lombardo Toledano and Lazaro Cardenas to arrange interviews with them for a Japanese professor named (fuu) KATO (phonetic) (see MEXI 2881, 18 December 1962).

E. Security

There were no known security problems.

F. Technical

No technical problems were encountered that could not be handled.

G. Production

During December, LIENVOY produced thirty (30) reports listed in the attachment. As usual, much CI/CE personality and operational material was obtained.

B. Material Processed

In November, the LIENVOY LP provided the Station with 131 pages of daily resumes from all lines, 78 pages from the Cuban lines, 47 pages from the Czech lines and 110 pages from the Soviet lines. In addition, all of the Soviet and Czech tapes were turned over for the translations of the Russian and Czech conversations. Thirty pieces of miscellaneous material were also received.

C. Liaison

In addition to the PB Band reports passed to LITENSOR, the Station also passed situation reports to him on the India-Red Chinese border war. LITENSOR requested the Station to check a report which LITENSOR had received that 22 boxcars of ammunition was being shipped into Mexico from the United States. (See MEXI 2688)

On 5 November 1962 Chief of Station met with LITENSOR at the request of Ambassador MANN. LITENSOR had LITEMPO/2 sit in on the meeting. Ambassador MANN prepared a memorandum based upon a Department of State cable which The Ambassador asked Chief of Station to read to (but not to leave with) LITENSOR. When Chief of Station told LITENSOR that he was to read the telegram (which concerned GPIDEAL's statements and position on Cuba) to him, LITENSOR asked if he could dictate what Chief of Station read to him into his (new) dictaphone. This he did. Both LITENSOR and LITEMPO/2 were pleased with the strong, definite and concise position of GPIDEAL. They were also grateful that Ambassador MANN had got permission to give them this report.

D. Exploitation of Material

Samples of information obtained during the month shed some light on the private life of Carlos Lechuga, Cuban Ambassador to the United Nations, (see MEXI 2701) and the involvement of Braulio Maldonado Sandez in the uprisings in the State of Guerrero. (See MEXI 2713)

E. Security

There were no known security problems.

F. Technical

Likewise, there were not technical problems.

G. Production

During November, LIENVOY produced the eighteen (18) reports listed in the attachment. The usual large amount of CI/CE personality and operational material was obtained.

45-61-80 Czech Embassy (Out)

B. Material Processed

In September, the LIENVOY LP provided the Station with 97 pages of daily resumes, 11 pages of resumes from the Cuban lines and 28 pieces of other material. There were also provided 125 pages of resumes from the Soviet lines and also 74 reels with the Russian conversations. In addition, there were 18 reels from the Czech lines.

C. Exploitation of Material

The following are examples of LIENVOY coverage:

1. A "George Sherman" contacted the Cuban Embassy about meeting with the Cuban Ambassador Carlos Lechuga. Sherman said that he knew Lechuga in Washington. (See MEXI 1925, 12 September 1962).

2. A "Gabino Fernandez", an employee of the Secretariat of the Presidency, made an appointment with Ramon Sinobas, First Secretary of the Cuban Embassy, because Fernandez wanted to speak to Sinobas before Fernandez went to Cuba for a visit. (See MEXI 1967, 18 September 1962).

D. Liaison

Briefing papers which were pouched by Headquarters according to DIR 31814 were provided to LITENSOR. LITENSOR requested a further situation report on his forthcoming trip to the Far East. He was ready to call off his trip if KUBARK felt that the world situation was gloomy. (See MEXI 1919, 11 September 1962).

E. Security

There were no security problems for the month of September.

F. Technical

None.

G. Personnel

A PRQ was forwarded to Headquarters for a POA on Guadalupe Hermosillo Quiroz in HMMA-19809.

H. Production

During the month of September, LIENVOY produced the forty-nine (49) reports listed in the attachment. The usual large amount of CI/CE personality and operational material was obtained in addition to the (attached) disseminable reports.

In /From Moscow/ KD calling from Moscow introduces himself to Samokhin as Kalugin. Kal says that he is in the office that prepares material for Sam to turn over to the press. Kal wants to have better contact with Sam. Kal says that Sam has to give his preferences to Kal on the kinds of articles that he wants for the press. Kal will be calling Sam to the telephone about two times a month. And then Sam can tell Kal what his preferences are in the way of articles. Secondly, Kal wants Sam to ~~be~~ to be more observing in informing Kal what is being printed in /Mexico/. That these articles be sent to Kal. Kal says "we" see that there is considerable that is being printed /in Mexico/. But whatever Sam sends to Kal is very irregularly sent. Sam says that "we" always gave quarterly reports. Now Sam is being asked for monthly reports. /seems there part of conversation missing/ Kal says for Sam to send him a two-word cable saying when Sam wants Kal to call. Then Kal will call Sam. For instance, if Sam has anything ~~to request~~ to request, then he could send the cable. Kal asks if, for instance, Sam has any questions right now. Sam says yes, he would like Kal to send him material on the commentators. Sam wants general material by specialists. Kal says that much has been sent to Sam. Sam says unfortunately, no. Not enough. Sam says it would be well if Kal could get ~~together~~ together articles by Nikolayev and Popovich themselves. With their signature to the articles. For instance, a greeting to the Mexican ~~reader~~ reader. "And with their signature /to the article/." Kal asks if Sam wants this addressed to the reader "of our periodical?" Sam says no, simply to the Mexican reader. This can be published any periodical. Kal will do this. Sam says he wants articles on the situation of education - the middle education, the special education, and higher education. These articles to be based on specialists writing them. Not popular articles. Sam wants information of middle, higher and technical schools. "We are being asked for such material." Sam would also like articles on culture and art. Articles not about some specific art or cultural matter, but the problems in culture and art. Sam wants that more specialized articles be sent to him. Articles for the specialized reader. Kal understands. Sam then asks when his replacement will be coming. Kal can't answer that. Kal says that he will call Sam on the 10th. Kal will try to give Sam an answer. Sam says he would like very much articles by Nikolayev and Popovich. Sam wants the photos of them also. Kal repeats that he wants very much commentary articles. Sam says this is very difficult to do for the month. "Because not so much is published." Kal asks that nevertheless everything be sent for the month that is published. Kal asks Sam to send these articles by air mail. Very well. Kal says that there are articles that have to be answered. Sam asks Kal to give his regards to the comrades.

In Sokolovskaya asks Samokhin if she can come over. Yes.

Samokhin asks Yegorov if there will be any mail today. Yeg says no.

In /from Moscow/ ID calling from Moscow introduces himself to Samokhin as Kalugin. Kal says that he is in the office that prepares material for Sam to turn over to the press. Kal wants to have better contact with Sam. Kal says that Sam has to give his preferences to Kal on the kinds of articles that he wants for the press. Kal will be calling Sam to the telephone about two times a month. And then Sam can tell Kal what his preferences are in the way of articles. Secondly, Kal wants Sam to ~~be~~ to be more observing in informing Kal what is being printed in /Mexico/. That these articles be sent to Kal. Kal says "we" see that there is considerable that is being printed /in Mexico/. But whatever Sam sends to Kal is very irregularly sent. Sam says that "he" always gave quarterly reports. Now Sam is being asked for monthly reports. /seems there part of conversation missing/ Kal says for Sam to send him a two-word cable saying when Sam wants Kal to call. Then Kal will call Sam. For instance, if Sam has anything ~~to request~~ to request, then he could send the cable. Kal asks if, for instance, Sam has any questions right now. Sam says yes, he would like Kal to send him material on the comments. Sam wants general material by specialists. Kal says that much has been sent to Sam. Sam says unfortunately, no. Not enough. Sam says it would be well if Kal could get ~~together~~ together articles by Nikolayev and Popovich themselves. With their signature to the articles. For instance, a greeting to the Mexican ~~reader~~ reader. "And with their signature /to the article/." Kal asks if Sam wants this addressed to the reader "of our periodical?" Sam says no, simply to the Mexican reader. This can be published any periodical. Kal will do this. Sam says he wants articles on the situation of education - the middle education, the special education, and higher education. These articles to be based on specialists writing them. SUBJECT	Operational/Soviet LIENVOY Product			ABSTRACT	
ACTION REQUIRED REFERENCES					
<p>Action: See paragraph 4 below</p> <p>1. Transmitted herewith, for purposes of Headquarters familiarization, is a typical one day LIENVOY product of the Soviet lines. (Note that the Station has additional LIFEAT coverage on the personal lines of Colonel Aleksandr Leonidovich SIDOROV and Svyatoslav Fedorovich KUENSTSOV, and on the office line of Vladimir Ivanovich SAMOKHIN).</p> <p>2. Except for the weekend period, the Spanish language transcript reaches the Soviet case officer on the day following; the actual transcription - at the most usually two days after the transcription. The Station's Russian language translator transcribes the Russian language portions immediately, and this product reaches the Soviet case officer about an hour or two after receipt of the Spanish reporting. Simultaneously, flimsy copies of the above have been given to the reports officer and to other interested Station officers. The first copy is kept in a Station chrono file, for purposes of permanent record. It is annotated for ZOHAR purposes.</p> <p>3. The Soviet officer, Lucy A. Dillinger, and other officers, read the product quickly for the immediate purpose of obtaining exploitable LEIMPROVE or other operational leads, and/or reportable intelligence. After this initial scanning, the product is literally cut up, with each clipping of significant conversation sent to COS and to various Station officers for their information and/or action. Whenever pertinent, the actual LIENVOY clip is sent to Headquarters, for information or action - or a summary of the clip is sent to Headquarters in dispatch form. Each clip is eventually routed to the Station's registry where indexing and filing is completed.</p> <p>4. The Station finds that this Soviet LIENVOY clipping program provides the files on the individual Soviet staffers with a rather good picture of their activities and personality. (These individual files are of course augmented with information derived from double agent operations, LIEMPTV reporting, Headquarters provided information, ODACID reporting, newspaper clippings and other miscellaneous reporting). In many cases, however, the backbone of a Station file on a Soviet may derive principally from bits and pieces of LIENVOY product.</p>

<p>Category station files receive the clips pertaining to Soviet commercial activities, propaganda activities, Soviet contacts, etc. Very often, a single clipping may have to be copied to be sent to the files of several individual Soviets and/or to one or more category files.</p> <p>5. Unfortunately, the Station does not have sufficient personnel available to analyze and collate periodically the LIENVOY and other Station product in the individual Soviet files for transmittal to Headquarters for its information; or possibly more important, for eventual transmittal to another Station where a Soviet from Mexico City is reassigned. Headquarters attention is directed again to MEXI-9885 of 17 January 1962 and allied correspondence regarding the desirability of having a trained Headquarters TDYer work on these materials at the Station. Headquarters may now wish to reinvestigate the possibility of finding a qualified staffer for this TDY assignment.</p> <p style="text-align: right;"><i>Willard C. Curtis</i> Willard C. Curtis</p>
