Currto 1309, Hospital Jackson Memorial, 7:10 P.M. Midwoles Dictembre 4 de 1968.

"Yo. JULIO ATON CONSTANZO PALAU. del 752 S.W. Curris calle, Miami. Florida, casado con María Constanzo, la cual está aquí presente, declaro lo siguiente: Nací ca Palma Sociano, Oriente, ca Cuba, el 22 de Mayo de 1936. Yo tenzo 32 años de edad, Me casé el 10 de Marzo de 1953 en Miami, Florida.

Yo no soy un ciudadano de Estados Unidos, Yo soy un residente, y tengo um hija, Elizabeth, la cual cumplira cinco anos de edad el 24 de diciembre, la cual nació aqua, en este Hospital, Jackson Memorial.

Mi prapósito de hacer estas declaraciones se debe al hecho que la policia ha permitido que pases varios

chis, y la gente que intenté quitarme la vida esté afuera en la calle, libres.

El 22 de noviembre, alrededor de las 8,30 de la noche, a unas tres cuadras de mi casa, yo estaba caminando y me bajé de la acera en la Tavenida y la Segunda calle, en la sección del S.W., cuando of a algulen llamarme "Atón", y miré para ver qu'en era, y entonces yo senti que ellos me disparaban, y yo vilas armas con silenciadores.

Yo v. a Ricardo Morales Navarrete, y el estaba ca un Chevrolet impala 1965, de dos puertas, amarillo con dos luces de cola. Estaba situado en el medio de li calle.

Este hombre, Ricardo Morales Navarrete estaba cael asiento de atrás, en la lado izquierdo. El tenfa un fusil M-3, con un silenciador, el cual dispara balas calibre 45:

Otro hombre estada manejando, y yo lo conozco de vista, pero no sel su nombre verdadero. Lo llaman con el spodo de "El Gallego". Este hombre, El Gallego, tenú um pistola que parecía uma Beretta, con un silenciador adaptado.

Ambos me dispararon. Yo recibl 15 heridas de bala y 21 perforaciones.

Un tercer hombre estaba en el carro, llamado Prancisco Rodríguez al que apodan "El Mejicano", el cual no disporto.

Yo identifico a Ricardo Morales Navarrete como al mismo hombre que testifica para el Gobierno en el juicio de Orlando Bosch.

Dos dús antes yo lo ví a & con esta otra persona. El Gallego, observándome en frente de mi casa. Ellos estaban en otro carro, un Polara.

Yo conozco a este Mornies Navarrete de La Habana, El era Jefe Asistente de la Sección del G-Zen el Aeropuerto de Rancho Boyeros, Habana, Cuba. Yo no he hablado con cl. pero otro hombre, Eddy Fernández Pla, hace casi dos meses, vino a mi casa a eso de la una de la madrugada para darme un mensaje de Ricardo Morales Navarrete y del Mejicano Francisco Rodríguez Tamayo los cuales no querian ser mis enemigos, que el enemigo era Batista, y que debíano mos ser amigos porque las cosas iban a cambiar.

Yo le dije que no querfa tener ninguna amistad con gente que trabajaba para Fidel Castro.

La noche que fiddy Permindiz Pla vino a mi casa, & estaba con otro hombre, Rogelio Permindez, el cual es un vendedos de la Pirestone.

Yo tengo una bala alojada cerca de mi corazón y tiene que ser extratia con un aparato especial, segúa me dijo el mólico.

En estos tres últimos días no me he sentido bien y como tengo todos estos tiros en mi cuerpo sé que estoy en una maia condición y me siento como que voy a morir, y si muero, no quiero morir sin que este gran pars enstigue a estos asesinos, los cuales son neíastos para toda la sociedad.

liago estas declaraciones completamente consciente de sus conte nidos, sin coacción y de mi propia y libre voluntad.

He tenido atención médica para a viar el dolor, y no me siento bajo la influencia de ninguna droga, pero me siento muy normal y hago estas declaraciones por las razones antes expuestas".

(firmado) Julio Aton Constanzo Palau-Testigos: César Camacho, Pelipe Rivero.

Estado de la Florida Condado de Dade Jurado y suscrito ente mí este día o ce decembre de 1963 a las 7,30 P.M. Gino Negretti, Notario Público.

REPUBLICA DE VENEZUELA MINISTERIO DE HELACIONES INTERIORES DIRECCION DE LOS SERVICIOS DE INTELIGENCIA Y PREVENCION

Caracas, 27 de MAR20 de 1972.-

Informe que presentan les funcionaries LUIS POSADA CARRILES, JULIO CESAR LANZA CARVAJAL y E FREN CASTILLO, en relación a las averiguaciones practicedas en el Campo Diamantiforo "La -Salvación", situado en el surcesta de la Gueyana Venezelana.

INFORME

- 1. Ubicación y descripción geográfica de la región. Su acceso.-
- Condiciones de vida y de trabajo de la población ming ra.-
- 3. Actuación de las autoridades.-
- 1. Ubicación y descripción geográfica de la región. Su ecceso:
 - 1. 1. El lugar donde se encuentra establecido el Cam
 po minero "ta Solvación" está ubicado al Sur Cesta del Estado Bolívar, en pleno corazón de
 la selva, cercano a les riveras del Río Guania
 mo, unas dos horas eproximadamente por vía esrea desde Ciudad Bolívar. El mencionado poblado esta enclavado en una superficie plana cu-yos contornos estan sembrados de innumerableselavaciones de tierras que forman parte del ma
 cizo Guayanés.
 - 1. 2. La única vía da acceso es abrea, ya que por la naturaleza de la región y su gran distancia de los centros poblados, os prácticamente imposible que se haga por otros medios. A tul fin se

CIFENCE-4

BELLEVIEW OF THE STATE OF THE S

han construido paquaños a improvisados aero --puertos en los carcaníos de la región del Guaniamo y mos pequeños aún en cada una de los mil
nas que van epareciando y dodde se agrupan tem
porelmente gran número de persones.--

Puntualizando lo entes dicho existo un coropuer to que sirva como Base do Operaciones en la región, identificado como Aeropuerto de "La Centella", cen una longie tud de echecientos (800) motros de pista de tierra, siendo este el de mayor temaño y desde dende se hacen los esta el de mayor temaño y desde dende se hacen los protrasbordos en evicantes mas pequeñas que salen a los propios cempos mineros, situados en un área no mayor de quin ce (15) minutos de vuelo.

En el caso de "La Salvación", esté campamentominero se encuentra exactamente a unos siete minutos de ... vuelo saliendo del Aeropuerto "La Contella". La pista de atorrizaje es igualmente de tierra con apenas trescientos ochonta (380) metros de longitud. lo que hace sumamente 🖚 peligroso au utilización, mas edn cuando observamos que so encuentra rodesda de árboles gigantescos que alcanzan-40 y 50 metros de altura. Por las características descritos, en esta pista han ocurrido varios accidentes aóreoscausando muertos, heridos y varios aparutos destruidos de los cuales actualmente se pueden apreciar en el sitio cin co totalmente insorvibles; igualmente no se utilizan los equipos de radio entre las avionetas y los acropuertos, a xistiendo el poligro latento do un accidento por el cho--que de aparatos tanto en el aire como en la propia pista, ya nuo generalmento existen nubos muy bajas quo aponas 🛶 permiten ver la pista como un pequeño clero en medio de 🕳 la solva: cota situación empoora cón mos por la irresponsabilidad de las líneas aéreas y los propius pilotos, -quienes buscando mayor beneficio sobrecargan los avionesa veces hasta con el doble del poso pormitido, sin que exista ningún control de Comunicaciones para regular tal a normalidad. Un ajemplo claro lo constituye la Linea "A--SERCA", que en un año registró trece accidentes en la ragión.-

- 2. Condiciones de vida y do trabajo do la pobleción mine
 - Las condiciones de vide de la pobleción que al 2. 1. canza aproximadamenta a unas 6.000 persones -(pero que llegó a tener al año pusado unas 🛶 15.000), dejan mucho que descar en el espectosanitario, habitacional y moral. Las aquas quo corren por el lugar cetan contaminadas por el espercimiento indiscriminado de excrementos on les márgenes de lus quebrados y pequeños ríos, así como en el interior del propio poble do. Los enfermedados, como el paludismo y amibiasis, se observan con bastante frecuencia por falta de asistencia y control sanitario; las enfermadades vendrase abundan por no existir un riguroso control sobre el gran número de prostitutos que existan en la población. La totalidad de las viviendas estan construidas con cartones, tables y lámines do zinc, que q<u>a</u> casamente protegen a sus moradores de las inclamencias del tiempo, siendo mas grave la oituación por la gran contidad de niños que son llevados por sus padres al lugar, por damás pa ligroso e inapropiado para ellos, sin que tampoco exista minguna regulación a control al respecto.-

La prostitución cobra marcado incremento en eg tas zonas, atrayendo mujores decdo diferenteslugares da la flupública y da países vecinos cg mo Colombia y Brasil, que se agrupan en improvisados bares situados dentro de la población, provocando hechos refiidos con la moral que se llevan a cabo en presencia de niños y de hones tas familias de mineros.-

Prolifera en sus diferentes manifestaciones el jungo, siendo los mas comunes la bareja y los-dados, bingos, etc., estos últimos sen transmitidos per altaveces dandole un aspecto de fe--

Generalmente los mineros forman grupos de trabajo constituyendo pequeñas sociedades entre las que se repartirá le genancia que logran ob toner, pero como corecen de recursos indiapansublog so ven obligados a incluir como sociosa personas que les prestan los implementas da trabajo o que financian su alimentación, constituyeddo esta forma una especie de explota --ción si se toma en cuenta que generalmente exa geron les cantidades consumidos por los mine-ros. Los compradores de diamentes aprovechan la pacesidad de vender los diamantes encontrados por los mineros, para pagarlos a precios muy por debajo de su valor real y los ospecula dores aprovechan para elevar los precios de 🕶 los alimentos, medicinas, etc., llegando en o- . portunidades de escaséz o vender hasta en Ba -40 un kilogramo de arroz. Actualmente dada la competencia y los constantes viojes que efec tuan ol lugar los diferentes líneas aéreas, en tro ollas: "ASERCA", "AEROVEN", "GATIZSA", "LA TINCARGA", "AEROTECNICA" y "COMERAVIA", los --precios han dejado de ser tan exagerados.-

3. Actuación de las eutoridades:

J. 1. Lakprimera autoridad civil del lugar está representada por un Comisario General de nombreJOSE TOMAS GAONA ESPINOZA, paro el verdadero control sobre la población es ajercido por laGuardia Nacional y para el momento da la presente averiguación estaba constátuida por un grupo de cuetro Guardias, comendados por un Ca
bo de apellido CARPIO; esta grupo en completamente nuevo en el lugar, a raíz de la selida del Teniente LUIS PRIN y de su segundo, un Cabo de apellido PIÑATE, quienes fueron sometidos e investigación por su propio Comando e -causa do frecuentes denuncias de presuntas i-regularidades cometidas en sjercicio de sus --

funcionas. Entrevistados algunos comerciantes—
y minaros del lugar, pudimos obtaner informa—
ción coincidente entre los mismos informantes—
de las/actividades desagradables para ellos da
marrolledas por les afectivos de la Guardia Na
cional, citando atropellos cometidos por el Ta
miente LUIS PRIN y el Cabo PINATE, destácando—
entre ellos los siguiantes:

Que cuendo ol Taniente LUIS PRIN VILLEGAS era el Jafe de le Guardia Nacional en PLa Salva --ción", existía el Bar "Bejuquero", cuya dueñaaparentemente era la ciudadana PETRA GUAPE, quien era públicamenta amanta del Tenianta 🚗 PRIN, ya que eran vistos caminar tomados de la meno por el pueblo y el Tte. dormía junto conella en el locel dal mismo Bar, lo grave de -los hochos, según revelan los informantes, setaba en que a los nuava de la noché el Toniente ordencha el cierro de todos los demás bares notificandole a los mineros por intermedio de los propios Guardias que si querían seguir tomando podían continuar en el Bar "Bajuquero",donde en varios oportunidades se vió a los ---Guardias uniformados despachando cervezas a -los clientes en el interior de ese Bar, por lo que se generalizó entre los pobladores la idea de que el Tta. PRIN tenía parte en el negocio. Igualmente informan los entrevistados que los Guardias Nacionales que comandaba el Tte. PRIN VILLEGAS, especialmente el Cabo PIÑATE, se daban a la terea de pedir a los mineros parte de la tierra que sacaban y donde podría haber o nó diamentes; igualmente cobrahan una especieda impuesto a las personas que administraban las casas do juages. Marran las personas entre vistadas que en una eportunidad los mineros, u no do allos menor de edad, se jugaben de manos en el pueblo, resultando golpesdo el menor y -

que eu amigo, quien lo golpeó, sin nale intención, no opuso ninguna resistencia y volunta-riamente munifestó a la Guerdie Nacional que estaba dispuesto a enviar al médico per su 🚗 cuenta a su emigo y e pager un arresto si erenecesario, cosa esta que no sucedió pues el -Toniente ordenó esposarlo y propinarle cinco planazos en presencia del pueblo para sel senter un precedente de respeto, según expresó.-Sa pudo conocer que el Mño pasado, por el mesde Noviembre, por orden de la Guardia Nacional sa llavó a cabo una reunión en el Bar del Sa--Nor ZABALA, y donde esistieron edemás el Coronel VALDERRAMA y el Tte. Chel BECERRA, proce-dentes del Destacamento acantonado en San Fernendo de Apure. En esta reunión se planteó lanecesidad de que colaboraran los comerciantesde la localidad para la construcción del Coman do de la Guerdia Nacional en esa mina; los comarciantes aceptaron hacerlo y negocio a negocio fueron visitados dando on 100 y 200 bolíva res cada uno, esta colaboración no fué del a-grado de los comercientes, pero por temor a re presalias prefirieron colaborar no pudiendo de terminar la cantidad recogida, pero se estimahe varica milea de bolívares; con la suma de dinero donada se construyó un galpón de zinc,cercado con alambres de pões que en la actuali ded hace las vecas de Comando de la Guerdia Na cional en "La Sclvación".-

Un Mayor de los Fuerzas Aéreas Venezolanos deapellido SEGUIA, se ha hecho en les mines hombre importante en su condición de comerciante. Adquirió junto con otros eocios la Línea aérea "ASERCA", piloteando personalmente uno de sus aviones, especificamente el identificado con las siglus: YV-C-ASI-, donde transporta personas y carga, especialmente carveze traida desdo Valencia y Maracey, constituyendose así enel mayor distribuidor da corveze en la mina; <u>a</u>
demõa posõe la ôtica fábrico de hielo que exig
te en el lugar y una planta poru tratemiento del agua, la que igualmente vende en la mina,Estos negocios estan administrados por un hermano suyo, y que los macuinarios de la compaMía que fabrica hielo y potabiliza el agua, -distinguida con el nombre de SAFER, fueron -truelodadas a la mina en un avión de corga de
las Fuerzas Afreas.-

Esta comisión pudo ver personalmento al MayorSEGUIA en su función do piloto comercial co -brando a los mineros que transportaba; igual-mente la comisión le observó en traje civil, -pero según informaron las personna interroga-das, este militar frecuentemente ha sido visto
con su uniforma da las Fuerzea Aéreas, por lo
que se puede deducir de que actualmente se en
cuentra activo en nuestras Fuerzea Aéreas.--

De la actuación de los Guardias Macionalas que octualmente se encuentran en "La Solvación" al mando del Cabo CARPIG, no hay acusaciones por atropellos, solamente y eso se pudo noter, to-leran el juaço y protegen algunos bares que -- permanecan abiertos hasta pasada dla hora normal. Entre estos bares figura una donde se -- practica la prostitución y cuya dueña, de nombro ROSA, se jecta públicamente de sor "la primera dama de La Salvación" por el hacho de ser la amente del Cabo CARPIO.-

En conversación sostenida en un plano amistoso con el Cabo CARPIO, éste manifestó a la comisión que ellos aceptaban regalos en dinero de parte de los mineros por el poco sueldo que de vengaban en un lugar como ese dende el costo de la vida es tan elevado.

Esta comisión, luego de hablor con las parso-

que han cuministrado algunas de estas informaciones, puedo adelanter que los mismos estarán
en condiciones de rendir declyraciones escri-tas si se les exigo, pero hiciaren la recomendeción de que en ese caso había que hacerlo -con suma discreción por temor a futuras represolios.-

Es todo cuanto tenemos que informar el respec-

to.-

A.- DIAMANTES .- Primera Parts

\$ SITUACION EXISTENTE EN VENEZUELA

11 Generalidados

En 1970 la producción dismantifera Venezolema elecazó 508.661 quiletes, siendo esta producción la más elte en la historia de esta actividad en el país. Cón relación a 1939 la producción ha triplicado según se desprende de los cusaros enexos de producción.

Esta producción ha sido lograda en eu cesi totalidad bajo el sistema de libre aprovachamiento, sinónimo de sub-desarrollo en los aspectos técnico, social y económico. En el aspecto técnico el sub-desarrollo se manifiesta en los sistemas rudimentarios de explotación que mo permiten el cabal aprovechamiento del yacimiento.

En el aspecto social son de todos conocidas las condiciones infrahumanas en que se desenvuelve la vida del minero, con la felta de sorvicios elementales, víos de comunicación, felto de seguridad personal imposibilidad de lograr una superación personal a través de una comunidad y familia estables.

En el aspecto aconómico los circuitos de marcadeo existentes hacen que el minero se encuentre a merced de los compradores organizados a quienes venden su producción en las condiciones que la non fijadas.

Por otra parta hay que señsler que el libre eprovechamiento solo puede ser utilizado donde concurren ciertes candiciones físicas como alta concentración del diamente y agua suficiente para las técnicas primitivas de lavado.

CIFENCE- 4

Con el nivel de producción actual y la riqueza potencial existente se hace naceserio efectuar modificaciones en la forma de aprovechamiento, introduciendo técnicas industriales de trabajo.

Iqualmento es de señolor quo la lay y reglamento estuales de Ninos datan del eño 1944, cuando la producción diamantifera no elcanzaba ni siquiera el 10% de los niveles estuales. Su modificación es imperativa e efectos de introducir nuevas regulaciones
cónsonas con los técnicas existentes inclusiva en países menos desarrollados que Venezuela.

No se pretende recomendar la eliminación de la explotación del diámante bajo el sistema de libre aprovechamiento por los implicaciones socio-políticos que esta medida tendría, pero si complementarla con la utilización de métodos industriales de aprovechamiento enmarcada dentro de una legislación actualizada.

El Ministerio de Minas conoce los pormenores de la explotación bajo el libre aprovechamiento desde hace tiempo, recalcada por los Inga. Francisco Izquierdo y Oleg Andreiev, expertos del MMH, en varias oportunidades.

La actividad diamontifera en Venezuela reviste enorme importancia según puede apreciarse en las cifras siguientes, (sobra datos de 1970):

- . Representa el 1,5% de la producción mundial, estimada oficialmente en 46 millones de quilates.
- Utiliza una fuerza de trabajo entre 10.000 y 15.000 mineros.
 De la cifra anterior es dificil determinar el porcentaje de venezolanos y de Extranjeros indocumentados que trabajan en asta actividad.
- Aporta e la Nación ingresos fiscalizados de 30.millones de bolivares de los cuales el Gobierno percibe en calidad de impuesto de explotación un 3%.

* 51 mfranc tranich-Fairbain estima en valu purepara la frédición en ? 20.000 ero y en total de boorder of porte 1979 Por información bancaria obtenida extraoficialmente, hemos podido saber que procedentes del exterior fué girada a Ciudad Bolivar una sumo corcena a los 70 millones de bo- / livares destinada a compra de dismantes durante 1970.

- Adoptendo una cifra conservadora de 50 millones de bolivares como valor de la producción de diamantes, esto representaría un 10% del aporte que hace el Producto Territorial Bruto el Sector Minero.
- La explotación del diamente dotermina una seria de inversionas en actividades conexas, altemente remuneradoras por lo general, como por ejemplo las líneas de aviación locales para transporta de mineros como Aerotécnica, Comeravia, Gatic G.A., Tanca, stc.
- Fuonte de ingresos para las Municipalidades. El Comercio en el Gueniamo cancela 5º. 15.000 mensuales a la Municipalidad del Distrito Cedeño del Estado Bolivar (sin prestación de servicio elguno hasta la fecha.).

12.- Especificaciones del Diemente venerolena

. Origan

El diamanto venezolono proviene de Guayana (Provincia de Roraima y Cuchivero).

Es un dismante de aluvión ó ses que se encuentra en el cauce de los ríos, ó forme en terrazas aluvionales depósitos ubicados a poca profundidad: 3 a 15 metros de acuerdo a la topografía.

En algunes regiones del mundo, los diamentes se encuentran en "chimeneas" 6 "pipes"; únices fuentes primorias de diamentes conocidas- ejemplo: Kimberley (Africa del Sur) - en otras en depósitos aluvionales como en Venezuela 6 en las pleyas del Sur Deste de Affica; 6 en una combinación de ambos - ejemplo: Yakutia, Rusia.

No todas las "chimineas" son productivas y 75% de la producción mundial proviene de aluvión.

La riqueza de los depósitos depende:

- del tenor en diamentes del material extiaido
- de la proporción entre los tipos, tella-industrial-bort
- de las características de las piedras (morfológicas y de color)

. Tenor

En Venezuela la cantidad de quilates por tonelada métrica es setisfactoria; para el Guaniamo se puede evaluar en 0,4 - 0,5 quilates por tonelada métrica - cantidad que justifica la cormanencia en el sitio del Minero de Libre Aprovechamiento. (1 quilate= 0,2 gramos)

Los valores promedios de los tenores de los yacimientos del grupo De Beers en Africa del Sur son de 0,2 a 0,3 - según se desprende del Informe Anual 1969 de De Beers Consolidated Mines LTD. COMPARACION ENTRE VENEZUELA Y EL GRUPO DE BEERS EN RELACION CON LA PRESENCIA DE DIAMANTE ENCONTRADO

ACTIVIDAD DISMANTIFERA DEL GRUPO DE BEERS EN 1.969

Tonclades de material diamantífero
extraídes y tratadas = 39 millones

Quilates obtenidos = 9 millones

Costo global = 232 millones de Bs.

Costo por quilate = 26. Bolivares

Tenor del material = 0,23 Qt./Ton.

(Fuente: Informe Anual 1969. DE BEERS CONSOLODATED MINES LTD.)

ACTIVIDAD DIAMANTIFERA DE VENEZUELA EN 1970

(Libre Aprovechamiento)

Toneledas extraídas

A STATE OF THE STA

5.000 mineros \times 2 Ton. \times 300 días = 2 a 3 millones ton. minero-día (max)

Quilates obtenidos = 500.000

Costo global = Indeterminado

Costo por quilate = Indeterminado

Tenor del material = 0,4 - 0,5 Quilates/Ton. (max)

. Proporción Talla - Industrial - Bort

La linea divisoria entra talla a industrial as a veces arbitraria y no absolute. Generalmente el diamente propio para la talla se caracteriza asi:

- está bien conformado
- es blanco o ligeramente coloreado
- pesa más de 1/20 quilates (10 mg.)

Son comunes en nuestros yacimientos unos diamentes triengulares (equilaterales de 2 a 3 mm da lado?) llamados "panelas" clasificados como industriales pero que pueden aprovecharse para talla.

El bort, oscuro, sirve para hacer polvo de diamente.

De acuerdo a las estadísticas suministradas por el Ministerio; de Minas e Hidrocarburos tenemos que la producción venezolana se distribuye en:

	1969	1970	(Guaniamo)
Talla	61%	25%	•
Industrial	30%	35%	
Bort	9%	40%	

Comparado con resultados estadísticos - muy escasos por cierto de otras par es tenemos la siguiente comparación porcentual del diamante de Talla con respecto a la producción total

•	Proporción de	<u>l tipo Talla</u>
Venezuela	25%	(aluvión)
Sierra Leone	60%	(aluvión)
-Wersselton-Kimberley	30%	(pipa)
Mir-Rusia		(pipe)
Udachnaya-Rusia	12%	(pipe)

(Cifras de MH; Cotty y Wilks, Inglesas; Gnevushev, Bartoshinsky, Zinkov y Sobolev, Rusos).

. Forma

Característica: morfológica que define al diamente de talla como un:

- . octaedro
- . rombo dodecaedro
- cubo.
- . formas intermedias entre las 3 anteriores

La forma cúbica es la más rara; generalmente en Venezuela hallamos octaedros; muy semajantes a los de Sierra Leone y que aparecen en la hoja - DIAMANTE DE TALLA - DIFERENCIAS MORFOLOGICAS -

Siendo de origen aluvionario se puede apreciar que presenten aristas redondeadas y no nítidas, significativo de un posible arrestre hasta su lugar de extracción.

Los octaedros de "chimeneas" tienen aristas nítidas y perfectas (foto). En la operación de talla, el octaedro es el mas apropiado para la talla americana ó full cut ó corte clásico del brillante.

. Estructura

Característica morfológica que corresponde al modo de cristalización de la piedra, observandose una de las dos particularidades siguien-

- estrías en las facetas 6
- estratos en el cuerpo de la piedra

Generalmente nuestras pideras presentan estas capas ó estratos, perfectamente observables al microscopio binccular, lo cual puede marecer un cuidado espegial en la operación talla.

. Tamaño

Hasta donde sebemba, los diamantes de Venezuela son mayormenta paqueños. Exeminendo un lota al ezar en operación de fiscalización Guía No. 00112, observamos la distribución siguiente:

mas de un quilate

24 piedras

menos de un quilate

1951

Total

1975 piedras

Las piedras grandes son rares - En 1970 fué descubierté en el Guanisso una piedra de 57,85 quilates, (adquirids en el sitio por 8s. 65.000 avaluada en 104.000 8. por el M.M.H. e los efectos del Impuesto de explotación.)

En esta aspecto el comercio ilícito hace errática toda investigación y solo se dispone tento en Venezuela como en gran parte de las árees de producción de datos indicativos relativos al temeño: por eja: lo en Ghana es frecuente la piedra de más de 2 quilates; en Outcitspan - Sur Africa, el ritmo de aperición de piedras de 50 a 200 quilates es más frecuente que en cualquier otro sitio (minas controladas por De Beers).

En los placerss aluvionales de playas del sur oeste africano las piedras grandas se encuentran en la desembocadura del río Grange, disminuyando el tamaño a medida que se aleja uno de la desembocadura (20 piedras/quilate a 200 millas de la desembocadura; explotación en el mar)

. Color

El color es otra característica que se toma en cuenta en la evaluzción da la piedra brute. En la piedra tallada su importancia es menor ya que el valor lo determinan en orden : las proporciones de las facetas, inclusiones, color y paso.

La mayoría de los diamantes son colorendos

Vanezuela

Blanco amorillanto

Ghana

, murrôn verdoso muy atractivo

Sur Africa

generálmente verdoso

Promier Mine

marrón ligaramente aceitoso

Mir-Rusia

Blanco

Sierra Leone

blanco verdoso

* Conclusión.-

El diamante de tella verezolano en términos generales, es un diamante de aluvión de buen tenor; octaedro bien conformado con estratos; pequeño; blanco amarillento.

¿Como se sitúa nuestro diamente con relación a los demás? (pregunta formulada a negociantes y talladores de New York, Londres, Amberes e Israel)

La respuesta ha sido que no compiten con : Rueia, Africa del Sur Sierra Leone, Africa Central.

Compiten con : Brasil, Guayana, Costa de Marfil y otros.

-13.- Comercio del distante en Venezuela

131.- Legislación:

De ocuerdo el estículo 137 del Reglamento de la Lay de Minas, el comercio de cre, dismantes y otras piedras preciosas está permitido solamenta a aquallas personas debidamenta inscritas en el - Ministerio de Minas e Hidrocarburos.

Los comercientes que tienen formalizada su inscripción ante el -Ministerio estén en la obligación de suministrar el informe mensual de sus estividades, según lo pautado en el mencionado artículo 137, craineles 5, 6 y 7.

Al presenter esta aspecto legal del comercio estamos repitiendo les frases comsignadas que se utilizan para recordar que en Vene zuela muchos son los que no cumplen con la Ley.

En el caso cel diamante están registrados en el MMH 433 comprado res con licencias y como se verá mas adelante las 2/3 partas no cumplen con lo pautado por la Ley.

132.- Circuitos Naciones y nexos con el Exterior

Compradores .-

En base a un fichero de compradores preparado a lou efectos de este Estudio se desprende que:

De los 430 compradores con licencia, registracas en el Ministerio de Minas e Hidrocarburos:

- # 104 cumplan con la Ley de los cuales :
 - 41 tienen una actividad permanente en el respocio, dentro del del país y
 - 63 tienen une actividad esporádica
- # 326 no cumplen con las disposiciones legales vigentes(Artículo 137 del Reglamento de la Ley de Minas)

Erupos.-

La población activa (104) de compradores está distribuída en 4 grupos.

133.- Precios

1331 .- Precio del diemante en la mina

Durante nuestra visità a las minas del Guaniamo en Octubre de 1970 homos presenciando numerosas transaciones comerciales entre mineros y compradores instelados éstos en el caserio El Candado, lugar surgido en medio de la selva a 200 kilometros al sur-cesta de Ciudad Bolivar con motivo de la "bulla" del Guaniamo.

Los precios practicados por los compradores, que por regla ceneral actuan por cuenta de terceros, son variables y dependen de los factores siguientes:

- Del tipo de diamente Generolmente se distinguen les cetegories siguientes:

. Talla de primera	۶.	300/qt - history
. Media talla	gs.	180 - 200/qt
. Industrial	5.	80 - 100/qt
. "reyers " reject	. 5.	50/qt

El numero de clasificaciones puede alcanzar 8 y se observa que la finalidad que ... persigue el comprador es de devaluar el lote, mientras que a nivel de fiscalización por el M.M.H. en Ciudad Bolivar el aumento del número de clasificaciones - 11 (once)-tiene por objeto valorizar el lote. No existen pués criterios unificados y saría muy dificil adoptar la misma clasificación ya que al Ministerio llegan lotes rèclasificados.

10/qt

- De las condiciones dal marcado

· . Bort

Bajo este concepto podemos enumerar la efluencia de piedras, la experiencia del minero, las instrucciones impartidas desde Ciudad Bolivar, Caracas o el exterior e los compradores.

De las Condiciones de vida del minero

El Minero organizado en grupo da trabajo, tiena ingresos proveniontes de:

- una actividad diaria que rinda 6s 100 a 8a 500 semanales por parsona.
- una actividad de envergadura consistente en una explotación a ma yor escala donde interviene la remoción de "grunas" o bloques de varies toneladas en una quebrada; la apertura de un "telin" o ca nal de desvío o corte de meandro; sotividad que ocupa generalmente a cuatro o cinco mineros y que rinde por ejemplo 8s 20.000,oo en un mes al grupo de trabajo.

Los gastos de existencia del minero son por otro lado muy elevados debidos a las condiciones mismas del sistema de Libre Aprovechamiento o sea aislamiento, hostilidad del medio, etc.

Podemos ilustrar lo costoso de la vida con los precios siguientes:

- un almuerzo (presa de pollo +arepa)	88	10,00
- un fresco	83	3,00
- una cerveza	- Es	5,00
- un kilo de cambures	8s	6,00
- periódico	. 8 s	2,00
- pasaje en helicóptero para un vuelo		
de 5 minutos aproximadamente (equi-		
valentes a trayecto caminado en 6 -	-	•
horas)	Bs :	LCO,00

Por lo expuesto podamos ver que el minero necesita un nivel aceptable de ingresos para hacer frente al alto costo de la vida que impo ne el medio, viéndose obligado en esas condiciones a aceptar los precios que se ofrecen por la producción encontrada.

En conclusión la explotación bajo el sistema de libre aprovechamien to hace difícil la determinación de los costos unitarios de producción, los márgenes de utilidad entre intermediarios y en general to da evaluación racional de tipo económico, incluyendo la producción - misma.

1332.- Precios a los efectos de liquidación del Impuesto de Explatación.

La Ley de Minas edmite que el impussto de explotación de 3% an el caso del libro aprovachamiento, sas cancelado por el compresso en caso de que el minero no pudiera hacerlo. La liquidación de assa impuesto tiene lugar en Ciudad Soliver y es generalmente un mandrig ta que contraliza los diamentes provenientos de vorios compresores el que presenta una solicitud de liquidación según el modelo anexo.

Es de hacor notar que el mayorista salacciona los piedras en basa a una clasificación impuesta por la fiscalía y que en ninguna mama corresponde a la clasificación adoptada en el momento de la compra en el sitio de explotación.

En base o la solicitud de liquidación el M.M.H. comprueba el valor declarado y generalmente aumenta dicho valor en un porcentaja muy razonable sobre el lote total: 2 e 5% según su composición — La — planilla de liquidación es la que sirva a los efectos de la canca lación en las oficinas del Banco de Venezuelo que actúa como receptor de fondos nacionales.

En base a las planillas señaladas apuntamos los pracios siguientes en bolívares:

Clasificación MMH	Tipo de dismanta	Boliveres		
	•	A	5	<u> </u>
1	Talla 1 más de 1 quilate	(300)	320	20
2	menos 1 quilate	(180)	190	10
. 3	Talla 2 más de 1 quilate	(220)	245	25

- A) Valores a los cuales el compreder dice haber adquirido las piodras de los mineros.
- B) Valor fiscalizado.
- C) Wiferencia imponible a los efectos del Impuesto Sobre La Renta (Utilidad teórica)

1333.-Progresión del nivel de precios.-

Es difícil establecer la ganancia de los intermediarios.

Se puede aceptor una utilidad de 5% por participante - es decir - que dosde el minero hesta el mayorista exportador (dos o tras intermediarios) el precio de una piedra aumentaría en un 10 6 15%, lo que no porece excesivo.

Son excepcionales las variociones mayores: del estudio del registro de ventas de los compradores que tienen actualizada su situación en la fiscalía del Ministerio de Minas en Ciudad Bolívar, se pudo ver por ejemplo que en Mayo de 1970 el Sr. Ramón Peña vendió al Sr. Visnel Alvarez en Bs. 9.000,00 un lote adquirido en Bs. - 6.800,00 ó sea realizando una ganancia de 30%. Normalmente este már gen oscila entre 4 y 7%.

En verdad, a través del circuito se opera una selección de las piedras que trae como consecuencia un aumento en el valor de los lotes.

Esto lo apreciamos en el ejamplo del IVIC - Instituto Venezolano de Investigaciones Científicas - el cual adquiere diamante industrial destinado a lo fabricación de las cuchillas de diamante, siendo pigdras escogidas.

De cualquier manera, puede apreciarse que los exportadores de dia - mantes aún haciendo una ligera utilidad de 5% en cada operación, da do que ésta se repita muchas veces a lo largo del año, hacen un elto beneficio, proporcional a la rotación de su capital durante el - período.

14.- Aprovechamiento del Dismente en Venezuala.-

Dol total de diamentes producido en Venezuela (en 1970 508.000,00 quilates) es infima la parte aprevenhada en el País.

En lo que se refiere el diemants de talla existen unos proces ta - lleres que en pequeña escala trabajan la talla del diemante. Tena mos el ajamplo en Ciudad Bolívar del Teller Coroní, con 5 parso - nes donde se talla eproximademente 400 quilates por eño, saçún in formación recebada en el Tallar mismo. Existen otros tallares en Puerto Ordaz. Caracas y la Colonia Tovar.

Se ha estimado que actualmenta no excede de 2.000, co quilatas por año la talla del diamante en Venezuala.

El Gobierno Regional en el Estado Solívar está impulsando el esta blecimiento de una escuela de tella en Ciudad Bolívar, habiendo - ordenado ya los equipos necesarios. Esta actividad merece todo el apoyo gubarnamental con miras a desarrollar en Venezuela los equipos humanos para que estos puedan competir en el Mercedo Internacional al cabo de unos años, una vez adquirida la experiencia nocesario, lograda en otros países en varias generaciones.

Hay que estar conscientes que la tolla del diamante es una sotividad eltamente especializada y compatida en Estados Unidos, Europa a Israel. Por ajemplo en esta último país existen 12.000 talladoras que devengan en promedio sueldos mensuales de 900,oo Ss., determinando esto un costo reducido de talla.

En Israel tuvimos la oportunidad de visitar los Talleres Barik que producen mensualmente 5.000 quilates tallados, variando los costos de la talla entre 15,50 \$ y 27,60 \$ por quilate.

Con respecto al diamante industrial, con excepción del Instituto - Venezolano de Invastigaciones Ciantificas, practicamente no existe el aprovechemiento de este tipo de diamante. El IVIC aprovecha - aproximadamente 200 quilates al año, como se detalla en ficha anexa.

Ejemplo.- Aprovochamiento del Diomente Industrial.Instituto Vanezolano de Investigaciones Cientificos.-

El IVIC utiliza el diomante industrial nacional para la febricación de la cuchilles de diomantes, para cortes ultrefinos, según técnica deserrollada por el Científico Venezolano Dr. Humberto Fernández M.

Precio de compra del diamante y circuita del mismo.-

El IVIC aprovecha enualmente 200 quilates de diamantes reselecciona dos de tipo industrial, por el cual paga a razón de 80,00 us/ quila te:

El circuito de adquisición de estos diamantes es:

Minero 🏠 Compredor de Cempo (empleado del mayorieta)

Nayorista de Ciudad Bolivar Nayorista Exportador de Caracas N IVIC

Mercado Externo.-

Con diamentes de buenas dimensiones y peso inferior a 1 quilate el IVIC fabrica las cuchillas para microtomo de primera calidad las - cuales factura así:

- . Cuchilla de 2 mm. de ancho, más soporte 120,00 dólares
- . Cada 0,1 mm. adicionales

20,00 dólares

El quilate de diamante de este tipo ha sido pagado al minero a razón de 50,00 6s/quilate. (diamante de primera, panelas), según se desprende de las planillas de declaración del mayorista de Ciudad Bolívar, - valor aceptado por el Ministerio da Minas.

Adquirienco el diamente e 80,co 8s/Qt. observamos que hay una diferencia de 30,co G/Qt. que viene siendo la utilidad de los intermedicrios esta ganancia no puede considerarse excesiva, máxima tomando en cuenta la selección da la piedra, pero al cabo de un eño de negocio de esta naturaleza el intermediario puede llegar a un rendimiento de 200 % sobre su capital dependiendo de la fracuencia con la cual su capital sea rotado.

Ejemplo.- Valorización de la piedra el tallarle.-

Duranta el transcurso del estudio se pudieron observar varies opere-1 cionsa de avalúa efectuadas en el laboratorio de gemología del MMH - Ciudad Bolívar, e petición de comprederes intersados en conocer el valor de una sortija personal.

El 15/10/70 se efectuó la experticia de una piedra presentoda por - el Sr. Splendiani de color amarillento, con un paso do 6,27 quilates (peso estimedo con tabla "deight Calculator" ya que la piedra estaba montada en sortija).

En la operación de evalúo se toman en cuenta por orden de importen - cia:

- 1.- Las proporciones de la piedra tallada (lupa y microscopio)
- 2.- La existencia de inclusiones, carbones y accidentes dentro de la piedra (microscopio)
- 3.- El color
- 4.- El paso

La piedra en cuestión fué evaluado en 24.000,00 %. (de haber tenido mejor color hubiera podido alcanzar. 6s. 120.000,00)

En la operación de talla el rendimiento es de 50% aproximadamente, o sea que la piedra bruta debió pesar 13 quilates aproximadamento.

El costo de la talla es 8s. 100,co el quilata o sez que en este caso costó Ss. 1.300,co

Tomando en cuenta el temaño y calidad de esta piadra, el valor en el sitio de explotación es de 6s. 10000, so, como máximo, haciendo notar que según la especificación del MSH en la fiscalización habría sido evaluada en un mínimo de 6s. 4.140, so.

Puede apreciarse en consecuencia la valorización habida por la piedra en el proceso de talla pasando desde aproximadamente 9s. 12.000,oo - revendida por los intermediarios hasta 3s. 24.000,oo evaluación del - gemélogo.

CIRAS RECOMENDACIONES

Las recomendaciones que e continuación hacemos guardan relación - directa, sunque no aparente, con el objeto mismo de nuestro estudio y estan destinadas a corregir, completer o reconsiderar algunos aspectos de la actividad diemantífera en Vanezuela.

Algunas da las recomendaciones no conciernen directamente al Ministerio de Minas e Hidrocarburos.

Liquidación Impuesto Explotación

Sería recomendable estudiar fórmulas que permitan agilizar los trámites y la propia operación de fiscalización sin restarla su debida importancia.

Se ha pensado que es podría contemplar a partir de un estudio estadístico emplio una liquidación en base al poso de los lotes o sea bolívares por quilate sin entrar a considerar calidades.

En efecto si existen 2.500 calidades de piedres, ¿porque entrar a - considerar & clasificaciones dentro del dismente de talla?, edemas no es raro que la talla malogre la piedra por cambio de color, rotura etc. quedando el concepto de calidad sin fundamento.

El estudio estadístico sobre un gran número de lotes con distinción de Talla - Industrial-Ecrt, permitiría establecer 3 valores que equi valdrianal actual 3% percibido sobre el valor del lote ó posiblementa superior al 3%.

Concretamente, suponiendo que el cuedro de producción para el eño -- 1970 sea un cuadro standard, observamos lo siguiente (Libre Aprovecha miento).

Talla	131.106,42 qts
Industrial	172.650,77 qts
Eort	204.983,85 qts
Total	509.661.04 qts
Valor para el impuesto	25.217.073.60 Es.
Impuesto. Pagado	800.597,42 89.

Si se adoptan valores de referencia teles que permitan gravar el producto en la forma siguiente

 Talla
 5
 89/qt.

 Industrial
 1
 80/qt.

 Bort
 0,25
 89/qt.

Obtenemos el cuadro de liquidación siguiente :

Talls 131.106,42 x 5 = 83.655.532,10

Industrial 172.650,77 x 1 = 83.172.650,77

Bort 204.983,80 x 0,25= 83.51.246,00

Total Impuesto liquidado 88.879.428,87

Licencias de Compradores

En vista de que las 2/3 partes de los compradores con licencia no cum plan con la Ley, sería conveniente reconsiderar el modo de otorgamien to de dichas licencias.

Ministerio de Hacienda

De acuerdo a la Lay, Artículo 144, las Administraciones de Aduana deben enviar copia de los Manificatos de Exportación de Diamentos al MMH. Es to no se cumple. El 5 de Junio de 1954 mediante oficio No. 5903 MMH - pidió al Ministerio de Hacienda el cumplimiento de dicho artículo. Sería conveniente reiterer la solicitud.

Control de Lotes da Diamantes en las Aduanas

Parace irrisorio que un las Aduanca da la República no se controle el contenido de las cajitas con diamantes en bruto que se exporten, y - cuando se hace como se el caso en Ciudad Solívar, se coloque el paque te que puede paser bruto 100 gramos o menos sobre una bolanza TOLEOO, que sirve para papar bultos de hesta 250 Kilos.

Se recomienda utilizar une balenza adecuado, y lecrer los paquetos para evitar el cambio de su composición.

Discosiciones Arancelarias

Les cifres de importación relativas a piedras precioses o semi preciosas, recopiladas por la Dirección General de Estadísticas del Ministerio de Fomento son prácticamente inutilizables.

So debería precisar en el Arancel de Aduanas las preciosas y las semi preciosas; y dentro de las primeras si se trata de brillantes, esmeraldas, rubie, zafiros u otros. El actual Arancel mezcla los varios - conceptos.

Recomendaciones de interés industrial

- A.- Se recomiende evaluar la riqueza de los materiales ya explotados en los placeres de San Salvador de Paúl, con miras al aprovechamiento industrial del diamante-eventualmente mediante licitación pública-ya que ensayos privados han demostrado la posibilidad de recuperar aproximadamente cien dólares en diamantes por metro cúbico.
- 8.- Se recomienda considerar la posibilidad de aprovechar a mayor escala, la experiencia del IVIC en materia de fabricación de cuchillas de diemante para microtomo; experiencia que a través de doce años le ha válido el IVIC en el exterior un gran prestigio.

Chris Frederick/ WH/3

Director of Security

ATTENTION:

FROM

SUBJECT

Nieves Elina Gonzalez de POSADA (A 12 443 942) REFERENCE: Your request for Reentry Permit dated_ 19 72 , and ick are Reentry Permitsuse issued for subjectson 21 April valid to 20 April 1973. The Permit may be used for unlimited entries into the United States during validity. Validity of Permit may be extended for a maximum period of twelve (12) months only. Extension of Validity of Permit must be made on the attached, "Application for Extension of Permit to Reenter the United States," (I&NS Form I-143). In certain foreign areas U.S. Consuls and U.S. Immigration Officers are authorized to extend the validity date. However, where security or cover considerations warrant, the Permit and Application should be forwarded to Alien Affairs Staff in order to have the validity date extended through cleared liaison with Immigration and Naturalization Service. FOR THE DIRECTOR OF SECURITY: Louis Wienckowski Attachment. Receipt acknowledged for Permits#0375384 and 0375385: OS/AAS/EStark 25 April 1972

15. CIFERCE-4 is currently assigned to the section of CIRASE with basic responsibility for guerrilla activity. As a result he is required to spend between 50 and 75 percent of his time outside of Caracas. While this has made him somewhat less accessible to the Station, he is well placed to obtain advance information with regard to possible plans for urban violence or kidnappings, high on theist of Station priorities. He has contributed to two reports during the period. A change in the Minister of Interior has recently been announced, which could result in changes down to the level of CIFERCE-4, especially should CIPERCE-1 leave his position. In the meantime, CIFERCE-4 continues as a valuable Station penetration of CIRASE.

SECTION 11 MOTIVATION AND CONTROL

Comment 1 | DIECT'S MOTIVATION, (Be detailed, if possible cite evidence. Do not use stock comment such as "anti-

See previous PRQ-II. While not now targeted directly against Cuban affirs, Subject undoubtedly continues in the intelligence field as a result of his former experience and the continued communist/totalitarian domination of Cuba. His opposition to such regimes and individuals associated makes for identity of interest and coals with BKTRUST.

2. INDICATE WHAT CONTROL, IF ANY, EXISTS OVER THE SUBJECT. (If no central, or if there is a lock of real control explain.)

Subject's present position and physical presence in Venezuela would be untenable if his cooperation with EKTRUST became known to the Venezuelan government.

SECTION III

COVER

1. COVER USED BY SUBJECT AND CASE OFFICER IN THEIR MEETINGS.

Meetings are clandestine. Plausible denial is basedon contact with CO in his official cover capacity.

2. COVER USED BY SUBJECT IN OBTAINING HIS INFORMATION AND IN CONTACTING HIS INFORMANTS.

Subject accomplishes this in the course of his actual employment.

3. INDICATE SERVICE FOR WHICH SUBJECT THINKS HE (XXXXXXXXXXXX (Is working).

BKTRUST

SECTION IV

INTELLIGENCE CONNECTIONS AND TRAINING

1. EXPLAIN SUBJECT'S KNOWN PAST OR PRESENT CONNECTION WITH ANY OTHER INTELLIGENCE SERVICE. INDICATE THE EXTENT SUCH CONNECTION IS KNOWN OVERTLY.

Same as in previous PRQ-II. In addition, Subject has been employed in Venezuelan DIGEPOL, and CIRASH.

2. LIST OTHER INDIVIDUALS (Agente, relatives, friends) ond know of subjects present intelligence activities.

Wife of CIFENCE-4; ANOTEX-54 (former AMIFF-1)

3. EXPLAIN ANY TRAINING SUBJECT HAS HAD IN CLANDESTINE OPERATIONS.

Subject has had no formal training since being in Venezuela (1967). Records not available here for period when Subject worked for Station WH/MIAMI.

SECTION V

COLLABORATION POTENTIAL

1. INDICATE OTHER FOREIGN POWER SUBJECT WOULD BE MOST LINELY TO COLLABORATE WITH BECAUSE OF MIS IDEOLOGY OF PAST ASSOCIATIONS. EXPLAIN.

Subject would not likely collaborate with any foreign power without permission from LNHARP.

SECRET

SECTION VI

OPERATIONAL USE - CONTACT

. IF SUBJECT HAS BEEN USED OR CONTACTED BEFORE, INDICATE ACTIVITY IN WHICH HE HAS ENGAGED AND THE TYPE OF INHOL MATION HE HAS FURNISHED.

See previous PRQ II for prior use by EKTRUST in Miami. Subject is known to and cooperated with LNERGO at BRTEUST direction while in the Miami area. Subject has also had contact with LNERGO Venezuela in the course of his official duties as a member of CIRASH.

. INDICATE HOW AND FROM WHOM SUBJECT OBTAINS INFORMATION.

Subject obtains information from CIRASH and its files and informants in the course of his normal work as an efficial of CIRASH.

3. INDICATE THAT HAS BEEN TOLD SERVECT AS TO THE DISPOSITION OF INFORMATION HE FURNISHES.

Subject knows from experience that information is disseminated throughout LNHARP

4. DETAIL SUBJECT'S PROPOSED FI OR CL TYPE USE OR DUTIES.

Subject is a unilateral penetration (FI) of CIRASH.

S. PETAIL SUBJECT'S PROPOSED PP-PM TIPE USE OR DUTIES.

None

SECTION VII

PROPOSED LIAISON OF OPERATIONAL ACTIVITY

1. DETAIL SUBJECT'S PROPOSED LIAIST TYPE CONTACT OR CPERATIONAL USE:

A. WHERE SUBJECT IS AN OFFICIAL WEMBER OF A FOREIGN GOVERNMENT!

Subject is an official of CIRASH. He is not repeat not involved in liaison with EKTRUST.

B. WHERE SUBJECT IS AN OFFICIAL OF ANOTHER AGENCY OF THIS GOVERNMENT:

N/A

SECTION VIII

AGENCY RELATIONSHIP WITH SUBJECT

1. EXPLAIN NATURE OF AGENCY RELATIONSMIP WITH SUBJECT: 1.E. TRAINEE, OPPOSITE NUMBER: REMUNERATION, IF ANY: AGENCY PERSONNEL KNOWN TO SUBJECT.

Subject is a paid agent. Se page 1 for Agency personnel known to Subject.

SECRET

SECRET	
SECTION IA : QUALIFICATIONS FOR OTHER OPERATIONS	
1. INDICATE SPECIAL ADILITIES, TALENTS, ON QUALIFICATIONS POSSESSED BY SUBJECT. B FOR OTHER OPERATIONS.	MICH COULD CONCESSABLY M OF VALUE
Subject is well trained in PM activities including mar	itime. He is an expert
in weapons, and knows demolitions. He is skilled in polic	e and intelligence ops.
SECTION 2 CONNITNENTS	
1. IF IT IS PROPOSED TO PAY SUBJECT A REGULAR SALARY, INDICATE THE RESELV AMOUNT COMMODITIES, SUBJECT OR CTHER METHOD, SPECIFY AND GIVE DETAILS,	, IF PAYMENT TO BE MADE IN ENCHANGE
Subject is paid a regular monthly salary of approximation	tely US\$ 335.
E ERPLAIN ANY PROMISES. OTHERBISE NOT COVERED HEREIN, MADE TO SUBJECT. (Brample: of subject and family,)	Compleants regarding evecuation
None; Subject has been assisted in retaining his perme	anent resident status.

HVCA-18640, 19 January 1972

CIFLUTE

July
Operational Report for Period XXXXXXXXXXXIII December 1971

CIPENCE-4 has been handled since August 1971 by Edgar B. MARTEGANI. It was decided for security reasons to take this agent out of the goup of agents handled by the Station Officer conducting limison, and CIFRECE-4 is thus handled as a truly unilateral penetration of CIRASH. During the reporting period allegations arose as to affiliation of CIFENCE-4 with JKIANCE. (See WH/Miami 12203 and Caracas 17730). The Station is aware of this situation and the agent is handled accordingly. CIPENCE-4 successfully passed his ump-teenth ECSWIRL examination on 3 October 1971 and the Station's opinion of this individual continues to be favorable. (See HVCV-9612 for SCSVIRL results). As an indication of the continuing high esteem enjoyed by CIFENCE-1 within the GOV, he was chosen by CIFENCE-1 to accompany the present Venezuelsn Minister of the Interior on a month long European vacation in September 1971. It is widely acknowledged that the Minister of the Interior is the leading candidate for the COPEI presidential nomination; should this occur and he be elected the next president of Venezuela, CIFERCE-4 should have a valuable friend. In summation, the Station continues to regard CIFENCE-4 as a valuable Station asset who has an excellent reputation within CIRASH and the GOV. He contributed to two intelligence reports during the reporting period, but his value to the Station lies primarily in operational reporting and his status as a unilateral penetration not known to be in contact with JKLANCE in eny vey.

PROVISIONAL OPERATIONAL APPROVAL

PUIL

MEMORANDUM FOR: Chice, WH/3/V - N. Davis

201-3009**85**

PUBLICT

CIFENCE/4

REFERENCE: Your Memorandum, Dated

- le

A Provisional Operational Approval is granted for the use of this Subject as set forth below.

A Provisional Operational Approval issued by CI Staff grants the same authority, on a temporary basis, for the use of an individual as the authority granted in an Operational Approval unless other ise specified by CI/OA. It is based, however, only on preliminary file checks and investigation and is subject to a further final review when all investigation is completed.

Penetration of the Directorate of Intelligence and Prevention in Venezuela. PART \mathcal{I} * \mathcal{I}

To process the Operational Approval, full information (completed PRQ Parts I and II) must be submitted as soon as possible and not later than six (b) months from this date. An Operational Approval will follow when all investigation is completed and upon the receipt of satisfactory PRQ Parts I and II. Concellation must be requested if use of Subject by interested Divisions ceases.

MEMORANDUM POR: CI/OA

SUBJECT:

CIPERCE/4 (201-300985)

- l. It is requested that a XOA be granted for Subject use as a penetration of the Directorate for Intelligence and Prevention (DISIP), a Venezuelan Security Service. Since Subject bolds a key position in this organization, he will be able to monitor its intelligence operations as well as Venezuelan political matters.
- 2. All current traces on Subject are non-derogatory. (See attachment to Form 772 for additional information).
- 3. Request for Approval, COMINT Name Check and PRQ Part I (dated 28 May 68) are attached. Updated PRQ Part I and Part II will be requested from Station.

SECTET

COMMENTS RE DEROGATORY TRACES ATTACHMENT TO FORM 772

- 1. A POA was requested on Subject in January 1968 for his use as a penetration of Venezuelan General Directorate of Police. Cancellation was requested in Pebruary 1968 because of indications that Subject was involved in "clandestine sabotage activity and suspicions that Subject failed to report his activities to CIA. There after Subject was treated as a "hostile". In the ensuing months Subject was described as "an extremely valuable penetration" because of his important and accurate intelligence information and operational reports. Subject was given a polygraph examination to clear up questions about possible affiliation with Cuban intelligence, unreported association with gangster elements, etc. His responses showed no information which would prevent CIA using him for ops purposes. Request for POA was again requested on 7 September 1968. This POA request was turned down on 15 October due to Subject being an "agent of a foreign power."
- 2. Since that time Subject has continued to provide verbal and written information reports concerning Communist and subversive elements, guerrills activities, Soviet activities, sabotage, etc. Subject continues to report accurately and often and has a very pro-U.S. attitude. Subject was again polygraphed on 29 November 1971 (a copy of which is contained in Subject's CI/OA folder). His responses indicated no deception concerning truthfulness of reporting to CIA, no compromise of his U.S. Government connections, non-involvement in illegal arms dealings, etc.

29 November 1971

FROM

: Interrogation Research Division

SUBJECT: CIFFNCF/4

IRD# 72501

BACKGROUND;

Subject, CIFENCE/4, is a 43-year-old, male, citizen of IDEN A who has been of continuing interest to JKLANCE since initial contact. He has permanent resident alien status in WOCORK as does his wife. He was last SGSWIRLed on 23 May 1968 with favorable results. Subject claimed that during service with IDEN B and previous service with JKLANCE, he had been SGSWIRLed and estimated the total number of SGSWIRLs he has had at twelve to fifteen.

PROCEDURE:

On 3 November 1971, CIFFNCE/4 was given a SGSWIRL at a covert site in IDEN C. Both the English and Spanish languages were utilized in discussing the SGSWIRL and the Case Officer, Edgar B. MARTEGANI, served as interpreter. During the SGSWIRL, the English language was used. The undersigned was introduced as Mr. Bob MOUNT from WOCORK.

PURPOSE:

The SGSWIRL was requested by Fdgar E. MARTEGAMI to determine whether Subject knows if any member of IDEN D and specifically if IDEN E is aware or suspects his current JKLANCE connections; if he has been requested to work against LNLUTE; if since May 1968 he has been in contact with or heard about IDEN F or IDEN G; if since May 1968 Subject has been involved in illegal arms smuggling. Specific questions utilized during the SGSWIRL are given later in this report.

CONCLUSION:

There were no unresolved reactions indicative of deception. It is the opinion of the undersigned that Subject answered all questions truth-

IRD# 72501 Page 2 29 November 1971

fully. Apparently Subject is unaware of any compromise of his LNLUTE connections; has been truthful in his reports to JKLANCE; has not been involved in any illegal arms dealings other than smuggling weapons into IDEN A for his personal use and the personal use of other members of IDEN D and related organizations; has not been asked to work against LNLUTE and has received no information from or about IDEN F or IDEN G.

DETAILS:

Subject was co-operative throughout the SGSWIRL and did not hesitate to assist in rephrasing questions and explaining his responses. He seemed open and frank in response to all queries. Subject exhibited a response to the question concerning IDEN F and IDEN G. Discussion of the Issue elicited the information that Subject had received some information concerning a son of one of these individuals. He also mentioned that on a trip to IDEN H a few years ago he had spoken by telephone to IDEN I but no mention had been made of IDEN F or IDFN G. Subject also showed a response to the question concerning illegal arms dealing. He explained that when he travelled outside of the country he brought back pistels, rifles, and on one occasion a shotgun. These weapons were for his personal use or were purchased for friends such as IDEN E or members of IDEN D. He stated that the weapons were brought in illegally and that even possession of the rifles (which were for his own use) was illegal. Specific questions concerning these arms dealings were asked. Based on the sessions results, it appears that while Subject has smuggled arms into IDFN A and possesses illegal arms, he has not been involved in smuggling large amounts of arms for personal profit or engaged since May 1968 in smuggling weapons of war into IDEN A.

Specific questions utilized during the SGSWIRL were as follows:

Were you born in IDEN J? Yes

Did you reside in WOCORK? Yes.

Are you concealing the identity of anyone who knows you work for JKI ANCE?
No

IRD# 72501 Page 3 29 November 1971

Does IDFN E know or suspect your present relationship with JKLANCE in IDEN A? No

Does your wife know you work for JKLANCE? Yes

Have you told IDEN K that you worked for JKLANCE? No

Have you ever been to IDEN L? Yes

Do you suspect that the IDEN M is deliberately giving you information to give to JKLANCE? No

Do you live in IDEN C? Yes

Are you employed by the IDEN M? Yes

Since May 1968, have you been involved in illegal arms smuggling? No

Since May 1968, have you had any information about or contact with IDEN F or IDEN G that you are concealing from us? No

Do you have permanent resident alien status in WOCORK? Yes

Has anyone asked you to work against LNLUTE? No

Would you like to go back to IDEN J to live? No

CIPEBCE-4

CIPENCE-4 continued to be a reliable, steady Station asset who continues to be one of CIPENCE-1's closest and most trusted associates. CIPENCE-1 has a great deal of confidence in CIPENCE-4 and always assigns him the most difficult jobs which he feels none of his other employees can handle. During a great deal of this reporting period, CIPENCE-4 was out of Venezuela on special missions for CIPENCE-1. He travelled to Lima, Peru to send a bomb which would not explode to the home of Perez Jimenes, went to Curaceao to conduct a special investigation and spent considerable time on the Colombian border. He contributed to two disseminated intelligence reports dealing with military intelligence about Colombian activities collected by a Venezuelan security service and the reported presence of eleven Venezuelan fishing boats and one warship in Colombian territorial waters. CIPENCE-1 has appointed CIPENCE-4 chief of the division of CIRASH

continued...

0

which is responsible for coordinating all of the activities of the CIRASH offices located outside Caracas. Such a position should offer CIFENCE-4 access towarious types of information and targets of interest to JKLANCE. As was said in the last CIPLUTE operational report, the Station continues to think very highly of CIFENCE-4 and looks forward to a continuing productive relationship with him.

CARAGAS INFO DIRECTOR

LOCAL LHERGO PROVIDED THE FOLLOWING INFORMATION FROM RELIABLE LHERGO SOURCE (WHICH THEY REQUEST THAT WE PROTECT):

A. ORLANDO GARCIA IS PRESENTLY IN MIAMI AND PLANS TO RETURN TO VENEZUELA VERY SOON, POSSIBLY ON 4 AUGUST. GARCIA WAS DESCRIBED BY SOURCE AS BEING A CUBAN IN THE EMPLOY OF THE VENEZUELAN GOVERNMENT AND WHO IS FRIENDLY WITH SEVERAL PROMINENT LATIN AMERICAN POLITICAL LEADERS.

B. GARCIA SAID THAT LUIS POSADA. A CUBAN WHO HEADS A VENEZUELAN INVESTIGATIVE AGENCY, WORKS FOR JELANCE. GARCIA SAID THAT OFFICIAL VENEZUELAN SERVICES (UNIDENTIFIED) KMOW THAT POSADA WORKS FOR JKLANCE AND THAT, KNOWING THIS, ARE FEEDING HIM FALSE INFORMATION.

- 2. WE PRESUME THAT GARCIA AND POSADA ARE RESPECTIVELY IDENTICAL TO ORLANDO G A R C I A VASQUEZ (201-967869) AND LUIS P O S A D A CARRILES (201-300985).
- 201-867869 AND 281-388985. GP-1

ONE OR TWO DAYS AND THEN RETURN TO CARACAS. CIFENCE-4 SAID ESTRADA ADDRESS FOR FUTURE OFERATIONAL USE AGAINST HIM.

4. CIFENCE-4 SAID HE WILL BE TRAVELLING AS GILBERTO OTERO VILORIA AND WILL USE A REGULAR VENEZUELAN PASPORI. THE TRUE NAME OF THE MAN TRAVELLING WITH HIM IS RAFAEL GUZMAN. CIFENCE-4 SAID HE WISHES TO PERFORM HIS MISSION IN LIMA AS SOON AS POSSIBLE AND FOR THIS REASON ASKS OF JKLANCE IN LIMA COULD POSSIBLY PROVIDE HIM THE ADDRESSES OF EOTH PEREZ JIMENEZ AND ESTRADA. HE SAID UPON HIS ARRIVAL IN LIMA ON 14 APRIL, HE WILL IMMEDIATELY SEEK OUT CONTACTS WHO POSSIBLY CAN PROVIDE HIM WITH THE ADDRESSES HE WISHES. IF JKLANCE IN LIMA CAN PROVIDE THE ADDRESSES HE SAID HE COULD TELL HIS ASSOCIATE THAT THE ADDRESSES WERE PROVIDED BY ONE OF THE CONTACTS HE MADE ON 14 APRIL. IF JELANCE CAN PROVIDE THIS ASSISTANCE, CONTACT WITH CIFENCE-4 SHOULD BE MADE EEFORE 9 A.M. ON 15 APRIL. THE PERSON MAKING THE CONTACT SHOULD TELEPHONE THE HOTEL CARRILLON ASK FOR GILBERTO OTERO VILORIO, AND SAY THIS IS NUMBER EIGHT

c. CIFENCE-4 The same method for emergency recontact as described for CIHURON-1, but with entirely different locations, will be used for emergency recontact with CIFENCE-4. If all personal contact between CIFENCE-4 and RIJOCK is deemed unwise, another Case Officer or an outside agent handler with proper bona fides and recognition signals will be used to contact CIFENCE-4.

1

HVCA-18146 15 May 71 c. CIFENCE-4 CIFENCE-4 is met clandestinely in a Safehouse or the automobile of either CIFENCE-4 or RIJOCK. Heetings are scheduled at previous meetings or by use of the system described in Attachment 2 of HVCA-17565, dated 21 April 1970. The only change in the system described in Attachment 2 of HVCA-17565 is that the word "peluqueria" has been substituted for "the usual place" (which means the Safehouse) and "costurera" has been substituted for "the location near my home".
